

SEA KAYAKING TOURING

Sea kayaking or touring is the sport of paddling on the open water of lakes, bays, and oceans. Touring can involve journeys ranging from a few hours to many weeks, along protected coastlines and inland lakes or out in the open sea. Sea kayaks are seaworthy small boats with a covered deck and the ability to incorporate a spraydeck to keep water from entering the boat. They are much longer than whitewater kayaks, offering cargo capacity, ease of straight-line paddling, and comfort for long journeys. Sea kayaks generally accommodate one or two paddlers together with room for camping gear, food, water and other supplies. Sea kayaks usually range in length from 11-18 ft/3.3m–5.5m for solo craft, and up to 25 ft/7.6m for tandem craft. Increasing the length of a kayak generally adds speed, which is useful for covering long distances. Longer kayaks are also less maneuverable, as turning quickly is not as important in open water. Sea kayaks provide an excellent way to get out on the water – for a day or a week, on familiar terrain or unknown territory, alone or with family and friends.

K1 COMPOSITE

MADE FROM A COMBINATION OF CARBON, KEVLAR AND FIBERGLASS, THEY ARE LIGHTER THAN THEIR PLASTIC COUNTERPARTS BUT LESS DURABLE IN THE EVENT OF IMPACT.

AQUARIUS - SEA EMOTION 505

NEW FOR 2011

The Emotion 505 opens a new line of sea kayaks by aquarius. The V shaped bilge has a properly designed bend along the entire length. It gives the Emotion an attractive appearance but also adds more stability and makes the entire body cooperate even better with the flip off rudder. Behind the cockpit you will find the flat surface to help the paddler during the rest on a longer trips. Ergonomic deck, very good paddling properties, big capacity.

Length: 505 cm - width: 56 cm - weight: D/P 25 kg, D/K-22 kg, C/K-20 kg - paddler weight range: 50-90 kg

Infos: www.gokajak.com

P&H - ARIES

NEW FOR 2011

New for 2011 the Aries takes the dramatically different design features and benefits from the Delphin and refines them for composite material systems and for the lower impact environment where composite kayaks excel. Hard chines and a pronounced deck are smoothed, producing a very forgiving, speedy and lighter weight kayak. The Aries is ideal for anyone looking for a versatile, lightweight and stable kayak to explore the coast line and will excite those looking for a kayak to trip out to tide races to play the sea.

Length: 472 cm / 15'5" - width: 57 cm / 22.5" - volume: 290 L / 76 gals - weight: 25 kg / 55.1 lbs - paddler weight range: 65 -125 kg

Infos: www.phseakayaks.com

VALLEY SEA KAYAKS - ETAIN

NEW FOR 2011

Traditionally Valley sea kayaks are slightly "fish-form" i.e. widest point slightly forward of centre. Our new boat, the Etain is more neutral, in fact very slightly Swede form i.e. widest point rear of centre, in theory a Swede form boat will be slightly quicker but it is the perception of speed that is more noticeable because you are now paddling in a narrower part of the boat giving a better sensation of the water coming past and a paddling stroke that is less encumbered by the deck of the boat. The Etain is designed to appeal to paddlers looking for an expedition style boat with this more contemporary feel. Available in 2 sizes in composite and PE construction.

Infos: www.valleyseakayaks.com

TIDERACE SEA KAYAKS - XPLORE X

NEW FOR 2011

The Tiderace Xplore_X is the high volume kayak in the proven Xplore range of expedition capable kayaks. Designed by Aled Williams, the Xplore_X benefits from computer modelling to create a large volume kayak without losing the handling characteristics of the standard Xplore. For 2011, the Xplore_X features three new epoxy based Tiderace Core Technology (TCT) layups. These allow the 2011 Xplore_X to be lighter, stiffer and more durable. This epoxy based, vacuum infused construction offers the highest performance and stiffness in the Tiderace range, with the lowest weight.

Length: 18'0" (5.5 m) - width: 23.5" (60 cm) - volume: 430 L - weight: 24.5 kg - 27.5 kg

Infos: www.tideraceseakayaks.com

TIDERACE SEA KAYAKS – XPLORE S

NEW FOR 2011

The Tiderace Xplore_S is the low volume version of the proven Xplore series of expedition ready touring kayaks. Designed by Aled Williams, the Xplore_S benefits from computer modelling to scale down the Xplore without losing or changing the characteristics from the larger boat, maintaining the class leading manoevrability and speed of the popular Xplore. Paddlers looking for a day boat with the ability to cover distance with ease, rock hop and deal capably with rough conditions will appreciate the nimbleness of the Xplore_S. Revised outfitting and attention to detail maintain the Xplore_S' reputation as a highly capable touring kayak with high levels of comfort, speed and manoevrability.

Length: 17' 5" (5.3 m) - width: 20" (51 cm) - volume: 330 L - weight: 22 kg - 25 kg

Infos: www.tideracesekayaks.com

TIDERACE SEA KAYAKS – XCITE

NEW FOR 2011

The Tiderace Xplore_S is the low volume version of the proven Xplore series of expedition ready touring kayaks. Designed by Aled Williams, the Xplore_S benefits from computer modelling to scale down the Xplore without losing or changing the characteristics from the larger boat, maintaining the class leading manoevrability and speed of the popular Xplore. Paddlers looking for a day boat with the ability to cover distance with ease, rock hop and deal capably with rough conditions will appreciate the nimbleness of the Xplore_S. Revised outfitting and attention to detail maintain the Xplore_S' reputation as a highly capable touring kayak with high levels of comfort, speed and manoevrability.

Length: 17' 4" (5.27 m) - width: 21" (53 cm) - volume: 366 L - weight: 22.5 kg - 25.5 kg

Infos: www.tideracesekayaks.com

SEABIRD DESIGNS – QANIK

NEW FOR 2011

Qanik is made from the legendary Illorsuit kayak. Slightly longer and with a higher bow to suit better for modern paddlers, but with the graceful sheer and upturned stems of the Illorsuit. Qanik comes with remarkable maneuvering – a bow rudder and edging (relying on impressive end stability) turns the kayak in almost in the kayaks Length! High deck Qanik will be comfortable on extended tours for those used to standard sea kayaks and it will carry your gear on weeklong tours. It is a safe and snug kayak with soft easy movement and a dry run in bad conditions.

Length: 546 cm (17'10") - width: 53 cm (20,5") - volume: 313 l (82,5 US gal) - weight: 21 kg (46 lbs) - max. cap.: 135 kg

Infos: www.seabirddesigns.com

ARROW – NUKA

NEW FOR 2011

Arrow Nuka is a Danish designed performance sea kayak, developed for the smaller paddler with playing, maneuvering and day trips in mind. Arrow Nuka fits the kayaker who prefers a kayak which responds instantly to the paddlers movement, in both rough and calm water. The narrow hull provides an easily paddled kayak that keeps up with the big boys, effortlessly. Rolling the Nuka becomes a breeze. All Arrow Kayaks have a high impact resistance with sandwich construction. The bows are extra reinforced to take the beating of the surf zone and to be strong enough for a tow in rough seas.

Length: 503 cm - width: 52 cm - volume: 311 L - weight: Fiber glass 24 kg / Carbon 23 kg - paddler weight range: 50-70 kg

Infos: www.arrowkayaks.com

ARROW – IVALU

NEW FOR 2011

Arrow Ivalu is a genuine Greenlandic kayak built on the original design of kayaks found in the Disco Bay area. It is accompanied with a traditional Greenlandic paddle in carbon. The Ivalu is narrow, long and has a low profile and small volume. Designed for rolls, playing and speed, both on flat and rough water. It is an easily paddled kayak which requires a little balance, but pays you back, by giving you the joy of the beautiful and original lines, effortless glide and easy rolling.

Length: 556 cm - width: 51 cm - volume: 217 L - weight: Fiber glass 21 kg / carbon 20 kg - paddler weight range: Up to 85 kg

Infos: www.arrowkayaks.com

SEA KAYAK DESIGN – 536

NEW FOR 2011

A fast and stable kayak, real marine style and with a very low resistance to wind. Beside its considerable dimensions, it is still a narrow and performing kayak. The 536 has a longer cockpit in order to facilitate quick exits from the kayak and also a big oval front hatch, for allowing a more comfortable loading and storage. Working hard on the immersed part of this kayak, we tried to keep the same slim look and line of its younger brother 526. So, a bigger volume kayak, but with a superb manoeuvrability when fully loaded. Designer: Raymond Varraud.

Length: 536 cm - width: 53 cm - volume: 350 L - weight: 25 kg - paddler weight range: 80 – 110 kg

Infos: www.seakayakdesign.it

RIVERS AND TIDES – RAZOR PURE

NEW FOR 2011

The Razor Pure combines a dynamic design with uncomparable lightness – and that all together with the priceless look of a mahogany kayak! With a weight of only 13,5 kg the Razor Pure suits paddlers from 50 to 100 kg and still offers a lot of storage. Razor Pure is reliable on lakes as well as on high seas.

Length: 500 cm - width: 58 cm - weight: 13,5 kg - paddler weight range: 50 - 100 kg

Infos: www.riversandtides.de

SEABIRD DESIGNS – BLACK PEARL HV

NEW FOR 2011

We have suspended the marketing common sense in favor of breathtaking performance and have started to produce this design. A kayak for resourceful paddlers who know exactly how to deal with difficult situations, do it right and with split second timing – a kayak for pure unaffected paddling joy and with no practical usefulness whatsoever. The kayak is highly responsive and does whatever is required and does it instantly. Go where you want to go, do what you want to do – your kayak will be there for you.

Length: 559 cm (18'4") - width: 52 cm (20'5") - volume: 259 L (68,4 US gal) - weight: 21 kg (46 lbs) - max. cap.: 136 kg

Infos: www.seabirddesigns.com

PLASTEX COMPOSITE – SEA STAR

NEW FOR 2011

A sea kayak in the highest quality. The material and technique is the same as in the racing kayak. The shape is one of the most famous sea kayak in the world.

Length: 550 cm - width: 53 cm - weight: 22 - 26 kg - paddler weight range: 65 - 85 kg

Infos: www.plastex-composite.com

PLASTEX COMPOSITE – SEA MASTER

NEW FOR 2011

A sea kayak in the highest quality. The material and technique is the same as in the racing kayak. The shape is one of the most famous sea kayak in the world.

Length: Big: 550 cm - Small: 530 cm - width: Big: 53 cm - Small: 51 cm - weight: Big: 22 - 26 kg - Small: 22 - 26 kg - paddler weight range: Big: 65 - 90 kg - Small: 60 - 70 kg

Infos: www.plastex-composite.com

CURRENT DESIGNS - SOLSTICE GTS

The Solstice GTS is a sleek North American Style Seakayak. The cockpit offers a snug fit allowing the paddler to become one with their craft. The sporty fit makes paddling a pleasure. Great for water big and small and trips long and short anywhere on the planet. This fiberglass or Kevlar seakayak comes fully outfitted with a rudder system. Safety items such as a reflecting lifeline or recessed deck fittings are standard. There are wider sisters: the GT, which additionally offers a higher cockpit and more volume, and the Titan, with an oversized cockpit and a higher deck.

Length: 17'7" - 536 cm - width: 22" - 56 cm / 24.5" / 62 cm - weight: 21,7-25 kg - max. cap.: 181/215 kg

Infos: www.canoes.de

FUN RUN KAYAKS - SPARTAN

Most modern western sea kayaks descend, through a variable number of intermediate steps and modifications, from the traditional hunting "qajaq" of the West Coast of Greenland of the beginnings and middle of the past century. In this regard, the Spartan represents a new direct look to the Greenlandic sources. A look that is aware of the recent evolution of the "qajaq" towards recreational and sport use to present an authentic and faithful interpretation that offers the precise control and intimate connection among paddler, craft and sea distinctive of Greenland "qaannat".

Length: 460 cm - width: 50 cm - volume: 230 L - weight: 18 kg - paddler weight range: 30 - 75 kg - max. cap.: 105 kg

Infos: www.funrun-kayaks.com

WILDERNESS SYSTEMS - TEMPEST 165 PRO

As one of the most capable sea kayaks on the market, the Tempest is beginner-friendly, but packs performance design features excellent for experienced paddlers. Shallow V-hull gives great control, edging, and speed in calm or rough water conditions and features a drop-down skeg. Maximum cockpit comfort makes it the sea kayaker's dream come true. Composite construction PRO series takes the responsiveness to the next level.

Length: 16'6" / 503 cm - width: 21.5" / 55 cm - weight: 49 lbs / 22 kg - max. cap.: 300 lbs / 136 kg

Infos: www.wildernesssystems.com

FUN RUN KAYAKS - SEDNA

The Sedna's design is the result of a careful hydrodynamic study aimed at producing a kayak of good primary and secondary stability, fast when cruising, directionally stable and able to accept a load without compromising her behavior, allowing her to tackle long expeditions. Of course, the Sedna surfs well too. To achieve all that, the Sedna has a beam of 56 cm, providing a reassuring initial stability even to absolute beginners. The great secondary stability comes from a slightly oval hull section and from gunwales angled in a V shape, which make the Sedna a particularly well-behaved kayak when leaning and bracing.

Length: 540 cm - width: 56 cm - volume: 328 L - weight: 24 kg - paddler weight range: 55-100 kg - max. cap.: 157 kg

Infos: www.funrun-kayaks.com

P&H - CETUS

The flagship of the P&H range, the Cetus is a fast paced expedition kayak that provides exceptional handling capabilities. The Cetus is available in 3 sizes and each model has superb stability in all conditions. Their skills at inspiring confidence are remarkable and truly unrivalled by any other sea kayak out there. P&H's handcrafted quality is on show here in its finest form. The versatility and maneuverability consistently surprises paddlers who are amazed that a sea kayak of this size can be so easy to paddle, handle, carve and turn so well through the water.

Length: 472 cm / 15'5" - width: 54 cm / 21 1/4" - volume: 292 L / 77.1 gal - weight: 27.6 kg / 60 lbs - Length: LV=531 cm / 17'5"

Infos: www.phseakayaks.com

ARROW - PLAY

ArrowPlay is a Danish designed performance sea kayak, developed specifically for playing, maneuvering and surf. A hull shape with a high degree of rocker and a fairly high volume in the bow gives these characteristics. There is a professional development work behind the hydrostatic design done by experts in design and shaping, combined with extensive practical experience and knowledge in sea kayaking. The result is a kayak with superior maneuverability, a rock solid edge and an optimal glide through the water. Arrow Play comes in a fiber glass and a carbon version.

Length: 513 cm - width: 53 cm - volume: 355 L - weight: Fiber glass 24 kg / Carbon 25 kg - paddler weight range: 75-100 kg

Infos: www.arrowkayaks.com

BORÉAL - EPSILON SERIES

The epsilon series is the logical choice for every type of paddler. Whether you are a novice or experienced, small or tall, thin or sturdy, you will find here a kayak that is perfect for you. Offered in polyethylene or in composite, the 3 models are conceived to suit everyone irrespective of height or weight. Its innovative design and low profiled deck (12 3/4" forward, and 9" aft) will allow you to easily make all of your paddle manoeuvres and Eskimo rolls. Furthermore, its semi-arched hull gives you enviable stability, and the long narrow waterline provides you with excellent directional stability.

Length: 16'4" (4,98m) - 17'6" (5,34 m) - width: 57,2 - 61,6 cm - volume: 375 l - 450 L - weight: 23,5 - 25,5 kg - paddler weight range: 41 - 127 kg

Infos: canadian-trading.de

FUN RUN KAYAKS - SIKUK

Efficiency and versatility reflected in elegant and attractive lines are perhaps the major traits of the Sikuk (marine ice, in Greenlandic). With this kayak, Fun Run seeks to offer a seaworthy boat, capable of maintaining high cruising speeds, predictable under wind and waves and comfortable. An excellent kayak for multi-day trips or long autonomous expeditions for paddlers of average and small size. It is also a great day boat. All of this within moderate dimensions that make the Sikuk easy to manage both in or out of the water.

Length: 510 cm - width: 55 cm - volume: 300 L - weight: 23 kg - paddler weight range: 50-95 kg - max. cap.: 146 kg

Infos: www.funrun-kayaks.com

NECKY - CHATHAM 17 GLASS

An ideal coastal explorer with great maneuverability and superb rough water performance. Excels at navigating surf zones, rock gardens and convoluted "tide rips". Very full chine provides great stability and quick response to edging and lean turns. Bow, day and stern hatches with bulkheads. Comfortable cockpit fit and adjustable outfitting afford a superb interface between paddler and boat. The Chatham 17 Advanced composite comes in fiberglass/epoxy lay-ups with selective soric coring. Soric combined with a multi-layer laminate with epoxy (post-cured) resin creates one of the strongest production kayaks available on the market.

Length: 5.3 m - width: 54.6 cm - weight: 23.6 kg

Infos: www.neckykayaks.com

SEA KAYAK DESIGN - 526

A low volume, fast and nimble sea kayak with a good tracking, especially in rough sea conditions. The low deck and the stretched line, offer a low resistance to wind. This kayak has been designed for middle weight paddlers (70/80 kg) and a loading capacity of approx 30 kg. The forward deck allows comfortable paddling and thanks to its low aft deck and ergonomic seat, the Eskimo roll is an easy manoeuvre. Designer: Raymond Varraud.

Length: 526 cm - width: 53 cm - volume: 278 L - weight: 23 kg - paddler weight range: 70 - 80 kg

Infos: www.seakayakdesign.it

SEA KAYAK DESIGN – 516

A medium volume, manoeuvrable and nimble sea kayak, with a good tracking and excellent marine behaviour. The low height on the water and the slim line, offer a very little resistance to the wind. The low aft deck and the anatomic seat help on the Eskimo roll as well as all basic exercises. Cockpit with anatomic tight braces. Groove for the positioning of the paddle during the paddle float rescuing.

Length: 516 cm - width: .54 cm - volume: 270 L - weight: 23 kg - paddler weight range: 60 – 80 kg

Infos: www.canoes.de

EPIC – 18X-SPORT

The Epic 18X family is designed for intermediate to advanced touring paddlers seeking a distinct edge in a high-performance kayak. Paddlers find that the sleek, efficient shape and long waterline enable them to cover long distances with exceptional ease and speed and deliver excellent performance in rough water conditions. In addition to all the features that come standard on an Epic, the 18X family includes the advanced Epic Track Master™ steering system, an adjustable seat, large storage capacity and front deck cutaways for a closer, more efficient stroke.

Length: 549 cm - width: 55,9 cm - volume: 173 L - weight: 16-21 kg

Infos: www.epickayaks.com

VALLEY SEA KAYAKS – NORDKAPP

The Nordkapp is an evolution of the design used in 1975 for the original Cape Horn expedition. Since its launch it has proven itself in almost every sea and ocean around the globe. Whilst the current Nordkapp shares many of the handling attributes of the original the design has evolved to meet the needs of the modern paddler resulting in a fast, comfortable and user friendly expedition capable sea kayak. Also available as an LV version.

Length: 548 cm - width: 53 cm - volume: 340 L - weight: 23.5 kg - paddler weight range: 185-275 lbs

Infos: www.valleyseakayaks.com

NORTH SHORE SEA KAYAKS - POLAR

North Shores take on the expedition-capable sea kayak. Loosely based on the kayaks of South West Greenland, with hard chines and noticeable rocker, the hull is quick yet very responsive to edging for easy course correction. A clipper bow gives a dry ride and the retractable skeg keeps you on track in quartering seas. Also available, Polar HV for fuller expeditions or higher loading capacity.

Length: 510 cm - width: 54 cm - volume: 350 L - weight: 24 kg

Infos: www.northshoreseakayaks.com

MS COMPOSITE – MSC VESTVIKA

The designers of this very fast sea-kayak are Bram van Aukeren and Jan van Sluis. MSC Vestvika is a very attractive kayak for experienced paddlers designed for a fast ride and minimum resistance of crosswind. This boat is available with these sizes of cockpit: 42/57 cm (E – type) and 46/65 cm (G – type). The MSC Vestvika could be equipped with skeg, rudder Navigator or Smart track control system, an integrated compass Silva 70P or a removable Suunto Orca Kayak Compass.

Length: 5,35 m - width: 52 cm - weight: 11 kg - height: 32 cm - compartments capacity: 170 L - paddler weight range: up to 80 kg

Infos: www.kayakcentrum.com

MS COMPOSITE – FALCO 430

The designer of the MSC Falco 430 is Ger de Bruin from the Netherlands. This stable, manoeuvrable and durable kayak is a great choice for lake touring and exploring. The turned-up bow allows paddling in wavy water without unneeded watering the deck. The MSC Falco has adjustable plastic footrests, installed plastic handles and backrests.

Length: 4,30 m - width: 55 cm - weight: 10 kg - height: 30 cm - compartments capacity: 120 L - paddler weight range: up to 85 kg

Infos: www.kayakcentrum.com

POINT65 - XP18

Touring made faster. Faster. More stable. A lean, mean, touring machine, the XP18 is the first of a new series of touring kayaks. All with exceptional glide, consuming mile after mile with little effort. The increase of both speed and stability makes the XP18 truly unique. The XP 18 is a very fast touring kayak with the aggressive appearance of an adventure racing craft – and the performance to match. Using highly advanced hydrodynamic design technology, the XP 18 has a markedly improved stability, maneuverability and speed.

Length: 549 cm - width: 54 cm - volume: 230 L - weight: 25 kg - max. cap.: 165 kg

Infos: www.point65.com

**CURRENT DESIGNS - VISION 140**

This 14' kayak is perfect for day tripping and weekend paddles. The added rudder for improved tracking and steering capabilities gives you a great kayak for both lakes and rivers. A generously sized keyhole cockpit allows for easy entry and exit, as well as ample foot room and large storage capacity. Made from Aramid/Fiberglas this lightweight kayak combines stiffness for glide and light handling out of the water. There are some shorter or longer versions available.

Length: 14' - 426 cm - width: 24" - 61 cm - weight: 37 lbs - 16.78 kg - max. cap.: 158 kg

Infos: www.canoes.de

**STELLAR KAYAKS - S18**

The Stellar 18' (S18) Touring Kayak is similar to the S16 in design, but with additional Length and reduced beam. This boat glides through the water efficiently. With ample storage for your longer tours and fast hull lines, this boat is a great boat for those who tour and race.

Length: 5.5 m - width: 54.7 cm - weight: 13 kg - 22.6 kg - paddler weight range: 60 - 120 kg - max. cap.: 160 kg

Infos: www.stellarkayaks.com

**STELLAR KAYAKS - S14**

The Stellar 14' (S14) Touring Kayak has the speed of a much longer boat, yet stable enough for beginners and its drop down skeg helps with tracking. Its short Length and light weight make it ideal for those who want a shorter high performance boat, or frequently car-top their boat.

Length: 4.35 m - width: 59.5 cm - weight: 10 - 18.2 kg - paddler weight range: 50 - 120 kg - max. cap.: 150 kg

Infos: www.stellarkayaks.com

**SKIM - BRAVEHEART**

The Brave Heart coastal kayak is fast and maneuverable. Great for playing in rough water yet still carving turns are comfortable. The Brave Heart has storage space for longer trips. If you are a paddler aiming to improve your skills and like to face challenging conditions, the Brave Heart with its stability and amazing fast turning will be the kayak of your dreams.

Length: 503 cm - width: 53,1 cm - volume: 322 L - weight: 21 - 25,5 kg - paddler weight range: 60 - 95 kg

Infos: www.skimkayaks.com

**SKIM - DISTANCE MK II**

Identical to the original Distance but with a slightly higher front deck for more leg and foot space. The cockpit rim has more angles for easier entry and exiting of the kayak. A day hatch has been added in front of the cockpit rim as well for storage of small items like cameras, telephones, snacks etc. The Distance MKII is an even better kayak for tall and/or heavier paddlers than the original Distance. Optional rudder.

Length: 585 cm - width: 52 cm - volume: 385 L - weight: 23,5 - 27 kg - paddler weight range: 70 - 100 kg

Infos: www.skimkayaks.com

SKIM - DIFFER

A mid-sized kayak for paddlers appreciating great contact, high maneuverability, stern tracking and a wind-cheating silhouette but who find Dex too small and Distance too big. Differ offers more packing space and carries more weight than Dex but with a slightly more v-shaped and narrow hull, making it more like Distance with regards to speed and tracking. Happy to catch a wave. Differ is 17'7" long and 20.3" wide. It has the same highly appreciated deck layout as its two sister boats, Dex and Distance. It has three watertight compartments and is equipped with skeg.

Length: 535 cm - width: 51,5 cm - volume: 320 L - weight: 23 - 25,5 kg - paddler weight range: 60 - 90 kg

Infos: www.skimkayaks.com

SEAKAYAKS >> BOATS >> K2 COMPOSITE

VALLEY SEA KAYAKS - ALEUT II

Designed by Howard Jeffs, this kayak is regarded as one of the best ever rough-water capable expedition doubles. The combination of speed, secure handling and ample storage capacity make it suitable for almost any purpose.

Length: 670 cm - width: 66 cm - volume: 685 L - weight: 41.5 kg

Infos: www.valleyseakayaks.com

NORTH SHORE SEA KAYAKS - ATLANTIC II

This high performance double has characteristics that match those of its single namesakes. This combination of confidence-inspiring stability and high cruising speed makes it a fantastic double for any Length of trip.

Length: 610 cm - width: 64 cm - volume: 625 L - weight: 36 kg

Infos: www.northshoreseakayaks.com

BORÉAL DESIGN - BELUGA

The Beluga is Boréal Design's composite tandem, which ensures confidence and ease from the first paddle strokes. This kayak combines stability and performance, while being capable of reaching high cruising speeds. A moderate rocker, coupled with a larger rudder, make the kayak easy to turn. Large cockpits offer ample room for the legs and feet. The practical centre compartment can be used for extra storage or outfitted with an optional child seat/bulkhead. This makes the Beluga ideal for paddlers with mixed abilities or families planning to take their kids on the trip.

Length: 21' (6,4m) - Width: 28½" (72,4 cm) - Weight: 81 lbs (37 kg)

SEABIRD DESIGNS - EXPEDITION LV

NEW FOR 2011

SeaBird Designs Expedition LV is the smallest Expedition series kayak. It is ideal for ladies, smaller men or junior paddlers. Bigger men who wish for a kayak with less volume may also enjoy the Expedition LV. Expedition LV is best suited for paddlers 45 kg to 85 kg. SeaBird Designs Expedition LV combines speed, stability, volume, weight and design very well! Few kayaks can match its all-around capabilities. We have managed to produce one of the best sea kayaks on the market, with a unique feeling of stability and safety.

Length: 480 cm (15'7") - width: 56 cm (22") - volume: 265 L (70 US gal) - weight: 26 kg (57,3 lbs) - paddler weight range: 45 - 85 kg - max. cap.: 130 kg

PERCEPTION - EXPRESSION 14 & 15

NEW FOR 2011

The Expression is the culmination of an 18 month design project to bring you the next generation in day and overnight touring kayaks. The objective: to design the most appealing, best performing and sporty day touring kayak on the water. With graceful and stylish lines, the handling offers all the performance you demand for trips and true control in any conditions, whilst the Zone DLX outfitting and two size options provide optimum comfort with an outstanding fit. The smooth, sleek and predictable nature is perfect for touring on coastal waters, estuaries, lakes and rivers. It handles chop with ease and revels in the chance to play the surf back to shore.

Length: 14=442 cm / 15=456 cm - width: 14=59 cm / 15=61 cm - weight: 14=24 kg / 15=25 kg - max. cap.: 14=130 kg / 15=140 kg

P&H - DELPHIN

NEW FOR 2011

This new P&H Delphin 155 turns traditional sea kayak design on its head and challenges many preconceived ideas of how a sea kayak should look and behave. The cockpit has been moved backwards and the stern squared off so that the bow just kisses the water, but when paddling the stern engages and aids tracking. This combination is unique to the Delphin creating a kayak that is long enough to paddle like a traditional sea kayak on flat water with enough speed to keep up with the pack but will transform into a new genre of free-ride sea kayak when it hits moving water, coming alive in tide races, over falls and surging water. Delphin 150 will be launched in Spring 2011

Length: 472 cm / 15'5" - width: 57 cm / 22.5" - volume: 290 l / 76 gals - weight: 26.5 kg / 58.4lbs - paddler weight range: 65 - 125 kg

Infos: www.phseakayak.com

ELIE - STRAIT 140 XE

NEW FOR 2011

You will be hard pressed to find an advanced day touring kayak with a great combination of performance, durability and premium features. What's new with the Strait 140 xe? We took our already generously-featured kayak and added the Quick Lock Hatch. The ultimate in quick and easy access, a simple quarter turn of the latches opens and closes the watertight hatch. The completely redesigned hatch has a low profile, preserving your kayak's streamlined look.

Length: 14' - width: 24.25" - weight: 55 lbs. - max. cap.: 300 lbs.

Infos: www.eliesport.com

ROBSON – TITRIS 16

NEW FOR 2011

A sleek and sea worthy design the Titris 16' is equipped with the Robson comfort seat, thigh braces and footrests, all adjustable, making for a solid fit. Large bow and stern hatches with bulkheads, plus an easy to reach day hatch, lend ample storage. Initial and secondary stability make for a steady tourer, an excellent choice for multi-day excursions.
Additional notes: optional rudder

Length: 505 cm - width: 56 cm - volume: 350 L - weight: 28 kg - max. cap.: 150 kg

Infos: www.robson.de

VENTURE – EASKY SERIES

With any of the Easky family you will find yourself equally at home on a coastal adventure as you will exploring a lake or inland waterway. All sizes have enough storage space for overnight trips and have a comfortable cockpit combined with stable hull shapes that still provide great sea handling so you get a kayak that helps you develop your skills with confidence and provides superior performance. With 5 sizes you are sure to find the one which suits your size, shape and paddling ability. Allowing you to relax and explore the water with confidence.

Length: 475 cm / 15' 6" - width: 61cm / 24" - volume: 325 L / 86 gal - weight: 22.6 kg / 50 lbs - paddler weight range: 55 – 135 kg / 121 – 297 lbs

Infos: www.venturekayaks.com

RTM – YSAK

This Greenland style kayak is an excellent choice for the long distance tour. The Ysak Lengthy water line makes for good tracking and provides excellent mileage with minimal effort. All models are PE 3 layer sandwich construction giving extra buoyancy and hull rigidity. The Ysak takes an optional rudder and can be generously outfitted.

Length: 16'7" / 506 cm - width: 22" / 57 cm - weight: 50 lbs / 23 kg - max. cap.: 265 lbs / 120 kg

Infos: rtmkayaks.com

WILDERNESS SYSTEMS – ZEPHYR 155

This award-winning design is the ultimate weekend adventure kayak. Unmatched tracking, maneuverability, control, and comfort. Sleek, sophisticated exterior hides engineering to handle the roughest conditions. Featuring our Phase 3[®] XP Outfitting and height adjustable drop skeg, it's engineered to satisfy those who demand the highest in performance.

Length: 15'6" / 472 cm - width: 22.5" / 57 cm - weight: 52 lbs / 24 kg - max. cap.: 275 lbs / 125 kg

Infos: www.wildernesssystems.com

JACKSON – JOURNEY

This touring model is all about balance, blending stability with outstanding performance characteristics and exceptional comfort whether you're a beginner that is learning the basics or the most seasoned paddler looking for a confidence-inspiring boat for heavy-water rock garden paddling. Ample storage and attention to comfort invite multi-day adventures. Comes standard with Smart Track rudder system for precision paddling although is available without if cost is a priority. Comes in two lengths, 13.5 and 14.

Length: 13'5" - width: 23" - weight: 52.5 lbs

Infos: www.jacksonkayak.com

PERCEPTION – CAROLINA 14.0

The most versatile touring kayak ever created with performance for the day or weekend tripper. Added length over the 12.0 means added speed and storage; while Zone DLX outfitting means ultimate comfort and fit when cruising. The original design has evolved to meet the needs of the modern paddler resulting in a fast, comfortable and user friendly expedition capable sea kayak. Also available as an LV version.

Length: 14' / 427 cm - width: 24.5" / 62 cm - weight: 55 lbs / 25 kg - max. cap.: 300 lbs / 136 kg

Infos: www.perceptionkayaks.com

**PERCEPTION – ESSENCE 16.5**

The thrill and performance of sea kayaking isn't just for experts (or just the sea). The predictable handling of the Essence 16.5 gives smaller paddlers all the tracking and maneuverability needed for that great expedition in a stable, comfortable package. Drop the skeg and open up a whole new level of excitement that pushes your abilities.

Length: 16'6" / 503 cm - width: 22.25" / 57 cm - weight: 55 lbs / 25 kg - max. cap.: 325 lbs / 147 kg

Infos: www.perceptionkayaks.com

**DAGGER – ALCHEMY 14.0 L**

The stylish Alchemy touring crossover series hits the water running, packed with performance capabilities for both flat and moving water. Featuring the stability that's suitable for new paddlers, but with performance edging and turning capabilities ready for advanced skill levels. With enough storage and speed for an extended weekend excursion, it's time to grab your gear and get moving.

Length: 14' / 427 cm - width: 24" / 61 cm - weight: 54 lbs / 25 kg - max. cap.: 300 lbs / 136 kg

Infos: www.dagger.com

**ELIE – STRAIT 120**

The sophisticated Strait hull design is fast, easy handling and stable. We took our already generously-featured kayak and added the Quick Lock Hatch. Nice touches all around enhance your experience.

Length: 12' - width: 25.5" - weight: 46 lbs. - max. cap.: 275 lbs.

Infos: www.eliesport.com

**WELHONPESA – BIGFOOT #1**

BigFoot is for paddlers seeking good access to the cockpit and room for their feet but still a well performing kayak in the most demanding conditions. BigFoot has low back deck for lower wind effect. The slightly V-shaped hull has been designed to be very stable. We have found hull design that has almost zero weathercocking and excellent cruising speed. Expedition version has two oval hatches, back and front dayhatch, deck fittings, deck ropes, footrest and backrest as standard. Capacity 60-140kg. Bigfoot #1 is made from special ABS-plastic and look as glassfibre kayaks. Also available: longer composite version Bigfoot #2.

Length: 534 cm - width: 57 cm - weight: 25 kg

Infos: www.welhonpesa.fi

WILDERNESS SYSTEMS - TSUNAMI 125

Excellent for both novice and advanced users, this slim and responsive kayak is one of the most exciting touring kayaks on the market. The multi-chined, V-shaped hull fuses tight tracking and stability for outstanding performance. Premium Phase 3[®] outfitting offers unmatched comfort for all-day or all-weekend treks.

Length: 12'6" / 381 cm - width: 26" / 66 cm - weight: 52 lbs / 24 kg - max. cap.: 300 lbs / 136 kg

Infos: www.wildernesssystems.com

CLEAR WATER DESIGN - MANITOULIN

The Manitoulin offers all of the features of our full sized kayaks in a day touring design. This compact, inexpensive, lightweight design has a soft chine hull which is very stable and ideal for the beginner. All ClearWater Design canoes and kayaks offer a 5-year limited warranty and are made in Canada.

Length: 13' 6" - Width: 24" - Weight: 46 lbs - Cockpit Size: 34" x 16" - Capacity: 250 lbs

Infos: www.clearwaterdesignboats.com

EXO - NAVIGATOR

The ideal marine kayak. Its narrow, streamlined design makes it as fast as composite fiber glass kayaks. This upper end marine tourism kayak comes equipped with two waterproof storage compartments and cover elastics. The Navigator is an ideal kayak for sea trekking.

Length: 460 cm - width: 60 cm - weight: 22 kg - paddler weight range: 50-100 kg

Infos: www.exokayak.com

SEAKAYAKS >> BOATS >> K2 PLASTIC

WELHONPESA - STAR DUO

Rental places and extreme competition organizers have wished for this well equipped larger and faster model. Most plastic double kayaks are very short and slow going and not suitable for paddling in bad conditions. Star Duo hulls are rotomoulded in U.K. but the rest assemblywork is made in Finland. Expedition version has bulkheads, decklines, hatches and rudder.

Length: 530 cm - width: 65 cm - weight: 35 kg

Infos: www.welhonpesa.fi

RTM - Speedo

The Speedo's advanced technical characteristics provide the dynamics and performance that its name suggests. This dynamic duo is cleverly equipped, has a great load capacity and provides unequalled comfort on the water. Combines all the advantages of RTM's sea kayaking range. Designed for longer trips, the speedo is the perfect choice for any tandem tour. Material: 3 layer polyethylene.

Length: 530 cm - 17 ft 5 inch - Width: 67 cm - 26 inch - Cockpit dims: 79 x 45 cm - 31 x 18 inch - Weight: 34 kg - 75 lbs - Volume: 355 - Max capacity: 270 kg - 600 lbs

Infos: www.rtmkayaks.com

OTHER

THE VARIETY OF OCEAN KAYAKING THAT DOES NOT FIT IN FOUR CATEGORIES: SURFSKIS, SAILING KAYAKS AND SIT-ON-TOP WATERCRAFTS ALLOW FOR UNLIMITED FUN AT SEA!

POINT65 – XP18 SPYDE

NEW FOR 2011

Freedom in thought, freedom in action. The XP18 Spyder is identical to the proven decked XP18 in all aspects but the cockpit. The XP18 Spyder enjoys all it's characteristics. It's fast and stable while highly manoeuvrable. A lean, mean, touring machine. The XP18 Spyder has exceptional glide, consuming mile after mile with little effort. The combination of both speed and stability makes the XP18 Spyder truly unique. With it's open cockpit it's one of a kind!

Length: 549 cm - width: 54 cm - weight: 25 kg - max. cap.: 165 kg

Infos: www.point65.com

EPIC – V8

NEW FOR 2011

Light weight, great speed and stability that is the new EPIC V8. Remount in just a few seconds. Safest type of craft especially in cold water paddling. Suitable for complete beginners as well as experienced paddlers. V8 can handle any weather conditions from flat to big ocean swell.... diverse use: suitable for fitness, touring, learning, ocean racing and more...

Length: 549 cm - width: 55,9 cm - weight: 11-17 kg - paddler weight range: max. 145 kg - max. cap.: 145 kg

Infos: www.epickayaks.com

WATERTECH – W-WAVESKIS

HIGH END

LIGHTWEIGHT CONSTRUCTION AND ADVANCED TECHNOLOGY CREATE A HIGH PERFORMANCE PADDLE.

BENDING BRANCHES – NAVIGATOR

NEW

In our NEW Navigator, Bending Branches has combined a high-tech, ultra lightweight, polished T-700 carbon shaft material with a proven blade design made out of exquisite black willow wood. The material combination provides unique flex and the unmatched fit and finish you expect from a Bending Branches paddle. The result: a smooth pull through the water, and reduced shoulder and arm fatigue. Proprietary Rockgard™ protection starts at the tip and wraps around the leading edge.

Length: 210, 220, 230, 240 cm - **weight:** 28 oz (220 cm) - **blade size:** 6.2" x 20.1"

Infos: www.bendingbranches.com

CORE – TOURING LOW ANGLE

NEW

CORE's new low angle touring paddles are available in both straight and bent shaft configurations. Using our proprietary Easton shafting these paddles are super strong and provide incredible performance for the low angle paddler. All shafts utilize our proprietary grip interface.

Length: 205 - 240 cm - **weight:** 820 – 920 g

Infos: www.corepaddles.com

CORE – TOURING HIGH ANGLE

NEW

A high angle touring paddle available in both bent and straight shaft configurations. Using CORE's new Easton alloy shafting these paddles are incredibly strong and offer beautiful, smooth and quiet performance. Full carbon blade.

Length: 205 - 240 cm - **weight:** 850 – 950 g

Infos: www.corepaddles.com

WERNER – CYPRUS

The Cyprus features mid-size high angle blades designed to be easy and fun to use for advanced maneuvers and all round touring. Our most popular high angle foam core model. * Versatile design fits a wide range of kayakers and kayaking conditions * Light weight, smooth and durable * Extremely stable bracing and rolling 210, 215, 220cm 2pc Adjustable ferrule. Standard and Small shaft available. Carbon Blades Straight Carbon Shaft or Carbon Blades Bent Carbon Shaft

Length: 210, 215, 220 cm - **weight:** 652 g - **blade size:** 610 cm² - **feather:** adjustable - **material:** foam core, carbon blade

Infos: www.wernerpaddles.com

WERNER – KALLISTE

Kalliste - Greek Island meaning "the best". The Kalliste is the ultimate Low Angle touring paddle offering an exceptionally light buoyant swing weight and silky smooth forward strokes. Foam core blade is light and buoyant. Exceptionally quiet entry and exit. Dihedral for smooth forward strokes. Ultimate all around touring design 215, 220, 225cm 2pc Adjustable ferrule.

Length: 215, 220, 225 cm - **weight:** 652 g - **blade size:** 650 cm² - **feather:** adjustable - **material:** foam core, carbon outer

Infos: www.wernerpaddles.com

KOBER – LAGOON EFC

Lagoon EFC High-end long distance touring paddle made from high value carbon and light as a feather. Built with well proven EFC-technology (Entire Foam Core) and featuring a medium sized blade for antifatigue paddling. This paddle provides the seasoned paddler with all advantages: More volume in the blade for enhanced buoyancy even in air filled water, bracing and rolling are made much easier. Even, hydrodynamically perfect cross-section without any impairing ribs and edges for a balanced performance.

Length: 215, 220, 230, 240 cm - **weight:** 605 g straight, 760 g ergo - **blade size:** 49,5 x 17,5 cm - **feather:** 60° R/L - **material:** carbon

Infos: www.kober-paddel.de

KOBER - LAGOON EFC

Touring paddle 100% carbon fiber Blade size: 18 x 48cm. Oval carbon Shaft: Stiff shaft (100% carbon, Green), Medium shaft (90% carbon, Burgundy), Hybrid shaft (40% carbon, Blue)

Length: 200-210 cm or 220-230 cm - **weight:** 570 g +/- 20 g - **blade size:** 18x48 cm - **material:** carbon fiber

Infos: www.zijie-sport.com

AT - XCEPTION SUPERLIGHT

The Xception Supertight is AT's lightest and highest performance touring paddle featuring full carbon-braided construction. Its versatile blade design is balanced, efficient, and forgiving.

Length: 210, 220, 230, 240 cm - **weight:** 28.0 oz - **blade size:** 602 cm² - **feather:** Synapse Ferrule with SmartSet Technology - **material:** Carbon braid

Infos: www.adventuretechnology.com

AINSWORTH - RTM 108 SILVER SEA TOUR

This narrow blade with soft dihedral and fine edges glides smoothly through the water. The excellent buoyancy in the blades minimises the energy used for each stroke making it ideal for long distance sea touring.

Length: 205 - 230 cm - **weight:** 880 g - **price:** £ 169.00 (carbon crank shaft) - **feather:** 15° / 30° / 45° / 60° - **material:** RTM (Resin Transfer Moulded)

PERFORMANCE

WITH PROGRESSIVE TECHNOLOGY AND SHAPE, PERFORMANCE PADDLES SUIT THE ADVANCED KAYAKER AND MAKE CRUISING A PLEASURE.

ROBSON - DOLPHIN

NEW

Experienced and well conditioned paddlers have found the high angle blade they have been looking for. The Dolphins' larger touring blade lends a powerful entry with a smooth follow through. The buoyant Flowtech blades are light and durable and offer solid bracing and rolling.

Additional notes: Robson makes it the way you want it: Shaft - carbon and bent carbon options - Quicklok feather adjustment

Length: 210 - 240 cm - **weight:** 838 g - **blade size:** 50 x 19.5 cm - **feather:** 30° standard - **material:** Flowtec

Infos: www.robson.de

PANENKA PADDLES - CHALLENGE

NEW

Exclusive paddle for sea kayaking and lake touring. Light and durable. Takes you all around the coast.

Length: 190 - 230 cm - **weight:** 790 g - **blade size:** 47 x 16 cm - **feather:** 0°- 60° - **material:** prepreg carbon technology

Infos: www.panenka-paddles.cz

LIGHTNING - SKIMMER CARBON

The trademark of all Lightning blades: thin but unbelievably strong and stable. The Skimmer is no exception, offering good acceleration, a high angle paddle that is forgiving on your joints.

Additional notes: Lightning made to fit: fiberglass and carbon, straight shaft.

Length: 210 - 240 cm - **weight:** 700 g - **blade size:** 52 x 18 cm - **feather:** 60° standard - **material:** Carbon

Infos: www.lightningpaddles.com

AQUA-BOUND - SURGE

Try out our high-performance paddle with compression molded blades that maximize stiffness and reduce weight. The Surge blades have a foam core to add buoyancy, increasing performance and assisting with rolling and bracing. The dihedral blade shape reduces the energy required to pull the paddle through water and eliminates flutter.

length: 210 - 240 cm - **weight:** 29 oz / 822 g (glass model), 25.5 oz / 723 g (carbon model) - **blade size:** 6.8 x 19 in / 17.3 x 48.3 cm - **material:** blade: lightweight woven fiberglass or carbon, shaft: T-700 carbon

Infos: www.aquabound.com

OPHION PADDLES - HIGH ANGLE TOURING

Ophion high angle touring paddle is designed to deliver the ultimate paddle performance and the best weight to strength available. This elegant, light weight and balanced paddle constructed from Carbon is perfect for smooth, but powerful strokes. Designed to deliver the ultimate paddle performance and the best weight to strength ratio available. Blades available in two sizes: L: 45 x 18cm, S: 45 x 17cm

Length: max 210 cm - **weight:** 850 gr - **blade size:** S blade: 45 x 17cm - **feather:** 30°, 45°, custom - **material:** carbon

Infos: www.ophionpaddles.com

ZIJIE - KAYAK PADDLE

Blade : ZJ-W0, ZJ-W1, ZJ-W2, ZJ-W3, ZJ-W4. Surface area: 720 cm², 735cm², 750 cm², 820cm², 845cm². Blade Size (WxL):15x49cm, 15.5x50cm, 16x50cm, 16.5x53cm, 17x53cm. Oval Shaft: Stiff shaft (100% carbon, Green), the stiffest shaft Medium shaft (90% carbon, Burgundy), the medium shaft Hybrid shaft (40% carbon, Blue), the most flexible shaft

Length: 200-210 cm or 220-230 cm - **weight:** 620 g +/-20 g, 650 g +/-20 g, 700 g +/-20 g, 720 g +/-20 g, 750 g +/-20 g - **material:** carbon fiber

Infos: www.zijie-sport.com

GREY OWL - SPINDRIFT

The Spindrift is a lightweight, stable and easy to paddle touring and seakayaking paddle. It is laminated with ash, cedar, mahogany and basswood. The exact carbon take-apart ferrule is perfect for easy transportation and storing. The not to wide and curved lightweight blades are covered with a fibreglas/epoxi cover and have a partially surround PU-tip. This wooden paddle is an excellent long-distance paddle.

Length: 220 - 250 cm, steps of 10 cm - weight: 1030 g - blade size: 51x19,5 cm - material: wood

Infos: www.canoes.de

DENESCANOE - STANDARD

Paddles are made of specially selected wood, and tropical wood with laminated technology. Right or left paddles are designed and built according to the buyer's wish and physical size. The blade's angel can be between 70° - 90°.

Length: 220 - 240 cm / 86" - 95" - weight: 1000 g - 1120 g / 35 - 39,5 oz - blade size: 20 - 23 x 40 - 47 cm - material: laminated wood

Infos: www.denescanoe.hu

AT - ODYSSEY CARBON

The Odyssey Carbon features a lightweight full carbon construction. The slightly larger blade design allows for more power without adding flutter. A great choice for paddlers seeking lower weight, easier rolling, additional stability and better grip in the water. Full Control Grip; Available in Standard Diameter.

Length: 210, 220, 230, 240 cm - weight: 34.5 oz - blade size: 695 cm² - feather: Synapse Ferrule with SmartSet Technology - material: Shaft: Carbon

Infos: www.adventuretechnology.com

TNP - WOLFERINE

Kayak paddle Wolferine is aimed for paddling on lakes and seas. The paddle is available on three types of shaft (duralumin, glassfiber, carbon). You will be captured by its unusual design and low weight (on 28 mm diameter carbon shaft, by Length 220 cm it weights 820 g). Thanks to special "nose" at the end of the blades you do not need drip rings. You can also use the YP coupling to set any type of angle and extend the paddle up to 10 cm.

Length: 200 - 240 cm - weight: 820 - 1150 g - blade size: 655 cm² - feather: 0° - 90° / L+R - material: technical plast (PA)

Infos: www.tnp.cz

ENTRY LEVEL

MADE IN A VARIETY OF SHAPES, ANGLES, AND SIZES, WITH PRICING ACCESSIBLE TO ALL PADDLERS.

AQUA-BOUND - STING RAY HYBRID

NEW

Unlike most other "carbon" shafts, which are actually a blend of carbon and fiberglass, Aqua-Bound Ray Series shafts are 100% carbon. So you get the strongest hybrid paddles on the market, with optimum flex. Combine that with their light weight and you have all the makings of happy shoulders and less fatigue. Additional notes: New and Improved abXII Blades 100% Carbon Composite Shaft, small or standard diameters. Available in 2 ferrule options; snap button or TLC. Made in USA.

Length: 210 - 250 cm - **weight:** 30.5 oz / 865 g - **blade size:** 6.25 x 18 in / 15.8 x 45.7 cm - **feather:** 3 hole snap 0/60°, TLC 15°/30°/45°/60° - **material:** Blade: abXII, Shaft: 100% Carbon

Infos: www.aquabound.co

PROFIPLAST - NOMAD

THE NOMAD is specially designed for seakayaking and touring and provides you with an excellently smooth stroke. The thermoplastic blade with progressive shape filled with carbon fibres has an excellent abrasion resistance, blade surface 644 cm² on duraluminium or composite shaft, in one-piece version. Weight of 200 cm with duraluminium shaft 1104 g, with composite shaft 936 g.

Length: 180 - 240 cm - **weight:** from 936 g - **blade size:** 644 cm² - **feather:** custom - **material:** thermoplastic with carbon

Infos: www.profiplast.cz

KOBER - BALANCE

Balance The sensation of the ATT-touring-series! The impact resistance and durability of polyamide (Nylon®) combined with the low weight and the precision of a composite paddle - carbon makes it possible. Effective transmission of power and sophisticated hydrodynamics without impairing ridges and edges result in effortless, stress-free paddling even during long passages.

Length: 210 - 240 cm - **weight:** 700 g - **blade size:** 52 x 18 cm - **feather:** 60° standard - **material:** Carbon

Infos: www.kober-paddel.de

AINSWORTH - K 108 SEA TOUR

This buoyant, teardrop shaped sea touring blade is a sheer delight to paddle. As well as being truly supportive, its tough polyurethane construction can take abuse from rocks and beaches.

NEW

SANDILINE – SEAK JACKET NJOERD 4L

The newest product out of the little slovenian Factory, that concentrates on manufacturing in Europe. In corroboration with experienced sea kayakers, this product was developed and has passed long termed field tests in Scandinavia. Thanks to Nicolai Ilcus and his crew, we offer you a modern generation of design and function on the water. The high quality 4 Layer fabric includes a special salt protection, that helps to avoid future breathability problems. A asymetric collar cut not just looks good but also excludes disabilities in head movement. Practical pocket position and YKK zip as well as a few added little functional design ideas, show a well thought item.

Infos: www.sandiline.com

NEW

KOKATAT – BLAST

New curved style lines. New dual adjustable neoprene outer waistband to produce a superior seal with spray skirt to ensure staying dry and keeping less water from getting into the boat. New neo cinch collar, a punch-through neoprene semi dry collar with adjustable bungee cord to ensure a secure fit. New one hand adjustable Cordlocs on the neo cinch collar and inner skirt bungee waistband for quick and optimal adjustment. Bicep punch-through coated Lycra stretch cuff on sleeves of this shorty version

Colors: azul, mango

Infos: www.kokatat.com

NEW

PALM – ALASKA

A full featured, expedition ready open ocean touring jacket constructed from uncompromising material. A garment you can count on to keep you warm and dry in tough situations, providing protection from nature's most powerful elements. Adjustable inner collar featuring a YKK® AquaGuard zipper that opens for ventilation • Natural latex gaskets at wrists with adjustable outer cuffs cut long to protect the back of the hand • Articulated cut with pre-bent sleeves and no underarm seams • Full featured, rollaway storm hood with advanced adjustment • Fleece lined collar covers lower face and features laser-cut breather holes...

Infos: www.palmequipementeuroppe.com

NEW

YAK – VOLT

New for 2011 is the all black version of the popular Volt dry top from Yak. Featuring 2 ½ layer taped material construction for durability, breathability and dryness, 3-way pre-bend in the shoulders, arms and wrists for ultimate paddler comfort, twin latex/neoprene neck and wrist seals to eliminate water ingress, deep sealing twin waist band to keep the cag secure and dry, and easily accessed chest pocket with laser cut zips for on-user storage. The Volt's sister cag, the Dare, has all of these features but with a single neoprene neck for those with latex allergies. Available in Black (Volt only), Blue/Black and Brown/Yellow.

Infos: www.yak-paddling.com

NEW

YAK – ADVENTURE

New in the Yak range for 2011 is the Adventure cag, which is designed for the recreational touring paddler who wants comfort combined with excellent features. Fully breathable with taped seams the Adventure features adjustable wrist and waist seals for comfort and superior sealing against water ingress, high storm collar to protect from the elements with a long front zip to allow easy venting, roll-away hood with multiple volume adjustments to ensure a perfect fit with exceptional peripheral vision, reflective arm prints with laser cut reflective zip backing, and weatherproof zips. Available in Black or Orange/Black.

Infos: www.yak-paddling.com

PEAK UK – COMBI SHORT JACKET

Highend-sea kayaking jacket made from super soft Polyamide 3 layer material.. Wide Neoprene hip with Velcro adjustment. Arm and neck with new designed, super soft Neoprene cuffs. To provide outstanding comfort. Adjustable hood with neck attachment.

sizes: S-XXL - color: blue

Infos: www.textil-langer.de

LANGER – SOCA

Superlight rip stop fabric coated with a high performance wet-type PU coating. Super soft neoprene dry cuffs at neck and arms. These materials combined with the 3-D construction makes this model one of the most comfortable jackets in the industry.

sizes: S-XXL - color: red, blue

Infos: www.textil-langer.de

PEAK UK – TOURLITE DOUBLE JACKET

Articulated cut with drop tail and bent elbows. Fully taped seams. Breathable and durable mid weight x 2.5 ripstop nylon with 10m waterproofing. Neoprene neck with opening Velcro enclosure. Neoprene outer wrists with opening Velcro enclosure with latex inner. Easy tensioned neoprene outer waist seal with grippy inner print. Light weight x 2.5 inner waist with elastic binding. Front zip pocket with hanging loop. Amazing value and performance jacket for touring and sea kayaking.

Infos: www.peakuk.com

DUEMSTUFF – TOUR DRY JACKET

Newest Duemstuff dry jackets are made to last. Special sea kayaking and touring designs are fit for the toughest sea conditions. Extreme Tour jacket features a special hood with a small window that performs great in cold wind, rain and spray. Aquamax nylon used is one of the toughest 4-layer trilaminate fabrics on the market. FEATURES 3,5mm Elastomax + Latex collar 3,5mm Elastomax + Latex hand cuffs.

Infos: www.duemstuff.com

DELTA SPORTSWEAR – CIRRUS SHELL

The Cirrus has been lovingly developed to be a versatile shell for use with sit on tops, open boats, sea kayaks and general everyday protection from the elements. The Cirrus benefits from a large venting neck - ideal when you put in a bit of unexpected effort. The soft rubbery(Stretch Charcoal) fabric cuffs can be comfortably adjusted to suit your mood and provide a splash proof seal. The whole trip or when you're trying to keep weight & bulk down when packing.

Infos: www.delta-sportswear.com

STOHLQUIST – TORRENT SEA TOURING

The Torrent series of drytops are all designed with a waterproof shell, technical yet economy priced with features for comfort and quality materials of the higher end pieces for long lasting durability. The Eclipse™ fabric with inner coating eliminates cling, and glides over skin surface or sweat. Totally waterproof, highly breathable fabric seals out the weather, even in an extremely wet down-pour or whitewater flush.

Sizes: S, M, L, XL, XXL, XXL

Infos: www.stohlquist.com

REED CHILLCHEATER – AQUATHERM TOURING CAG

Made from Aquatherm and Super Stretch Aquatherm Fabrics. A uniquely soft and comfortable cag that can be worn next to the skin or over thermals. Making use of our new front baffle neck seal, with its wider neck gape when undone, allows for good ventilation on prolonged journeys. Super stretch aquatherm dry seals on the cuff and neck offers a more comfortable fit over a broader area of your wrist and neck, giving a comfortable seal without the cruder pressure associated with traditional latex seals. The seals are tough, durable and non splitting.

Infos: www.chillcheater.com

KOKATAT – RE-ACTION JACKET

New curved style lines. New dual adjustable neoprene outer waistband to produce a superior seal with spray skirt to ensure staying dry and keeping water from getting into the boat. New neo cinch collar, a punch-through neoprene semi dry collar with adjustable bungee cord to ensure a secure fit. New one hand adjustable Cordlocs on the neo cinch collar and inner skirt bungee waistband for quick and optimal adjustment. Hook and Loop adjustable coated Lycra cuffs protect latex wrist gaskets. Colors: azul, mango, radish

Infos: www.kokatat.com

sizes: XS. SM. LXL. XXL

Infos: www.peakuk.com

KOKATAT - MSFIT TOUR

The MsFIT Tour was originally designed for women, but the comfort and fit is loved by both women and men alike with its shorter torso and articulated princess cut foam panels, allowing for easy movement and adjustability. Redesigned to offer improved features and better aesthetics: Incorporates redesigned top-loading duplex stretch mesh pockets complete with a key lanyard, for easier access and optimal organization. Two pockets. Newly repositioned front lash tab for quick access. New covered knife garage over lash tab for protection against snag hazards. New logo placements. Made with GAIA PVC-free foam.

sizes: S/M, L/XL, XXL

Infos: www.kokatat.com

KANUK - 404 LIFEJACKET

A lifejacket designed to meet the needs of the female kayaker. This lifejacket gives maximum movability with absolute minimum of bulk. It's high cut so you can sit relaxed in your kayak with the spraydeck underneath and no riding up. The front, filled with Airex Super Soft foam, is divided so it can follow the body anatomy. A pocket and a D-ring where you can attach a paddle leash (420). It has mesh along the back to ventilate body heat. Prepared for attachment of bottlebag (450). EN 393 50 N, 5-years warranty! Color: Yellow/Black

sizes: M (50 - 70 kg), L (70 - 80 kg),XL (80 - 90 kg)

Infos: www.kanuk.nu

STOHLQUIST - BETSEA (WOMEN)

The women's specific Betsea features the ergonomic WRAPTURE shaped torso that wraps around the body for a close, low profile and comfortable fit. The crosschest cinch harness keeps flotation positioned low on the torso, eliminating ride-up while providing the most effective in water buoyancy. Princess seams inside & out for a feminine fit. Built in contoured inner cups wrap rather than crush. Two large zippered pockets for easy accessibility and storage. Lined hand warmer pockets.

Color: Powderblue/Gray, Sage/Sand, Mango/Black, Pink/Black

Infos: www.stohlquist.com

PALM - KAIKOURA

A front zipped expedition level touring PFD packed with features and storage space. Flex Formed Foam technology means you barely notice you are wearing it. Size options: XS-S (60N) / M-L (70N) / XL-XXL (70N) available in Red / Grey and Blue / Grey

Infos: www.palmequipmenteurope.com

ASTRAL - TEMPO 200

The Tempo 200: A classic Astral jacket that provides a combination of fit, mobility and technical features for sea kayaking, whitewater or general use. Pre-shaped foam panels wrap around the body for a comfortable and secure fit. ISS Shoulder straps allow shoulders to move up and down without restriction and tighten jacket around torso when pulled up in rescue. Features include fleece hand warmers, two zippered front pockets, side flotation protects the ribs and organs, strobe light attachment on back, hydration compatibility and more.

Sizes: S/M, L/XL

Infos: www.astralbuoyancy.com
