WHITewater

Whitewater kayaking is an exciting sport that involves paddling down rivers and rapids – from simple, gently moving water to demanding, challenging rapids. The sport encompasses a wide variety of disciplines, from creek boating to river running to play boating, and each offers different ways to appreciate the river. With so many approaches to choose from, there is a style of whitewater paddling for everyone. Whitewater paddling is becoming increasingly accessible to a wider population thanks to better equipment and improved designs. Gear made specifically for kids, and in a wider range of adult sizes, has also made whitewater paddling more appealing in recent years. Specified boat and gear designs have grown to meet the needs of each style of whitewater paddling. Creekboats tend to be larger volume with significant rocker, bulbous ends, and a more rounded hull. Playboats are generally shorter and smaller volume, often with a flat hull, slicey ends and sharp chines. River running boats generally utilize a blend of creekboat and playboat characteristics, aiming for a balance between stability and playability. Boats, paddles, PFDs, and helmets are designed distinctly to cater to the specific demands of paddlers on all types of whitewater. Countless accessories also exist to make paddling easier, more comfortable, and more feasible in a variety of weather conditions.

WHITEWATER CREEKING

High stability whitewater kayaks designed specifically for running rivers and steep creeks.

PYRANHA - SHIVA

The Shiva joins the proven Burn design to give Pyranha the strongest lineup of creek boats on the market. An all-out creeker with a soft edge, and more rounded hull, the Shiva gives paddlers maximum confidence to push their limits. Progressive rocker and width towards the stern gives high speed and maximum stability. Raised bow rocker deflects rocks and softens landings. The peaked deck resurfaces quickly. Soft stern chines let you carve into micro-eddies with control and confidence. Shiva, fast, forgiving and full on – it's all about the Stout.

SPECS:

Length: 249 cm - width: 65.4 cm - volume: 295 L

FLUID - BAZOOKA

You like to run the steeps. You do it in the company of friends you can trust. You scout the lines, set up safety. But when you get in your boat, leave the eddy to aim for the horizon line, you're really going ... Oh wait, that was the blurb for the Solo! Truth is, the goals of creekboat design haven't changed. But our knowledge of kayak design and the interaction with turbulent water in the most extreme conditions has changed. Harder rapids than ever before are being run by the elite athletes of the whitewater world. Feedback on designs is more comprehensive and more precise than ever before. Our understanding of the complex fluid dynamics involved has improved dramatically.

SIZES: SMALL - LARGE - MEDIUM

SPECS:

Length: S = 230 cm / 7' 5" / M = 245 cm / 8' / L = 260 cm / 8' 5" - Width: S = 64 cm / 25.1" / M = 65 cm / 25.5" / L = 66 cm / 25.9"

www.fluidkayaks.com

LIQUIDLOGIC - STOMPER 80

The Stomper follows the long lineage of outstanding creek designs at Liquidlogic. Its beginning and history start here on their home river, the Green. Developing the Stomper began by blending the speed, stability and rolling ability of the Remix Series with the bomber construction, safety, and boatability of the Jefe Series. This combination, coupled with the Stomper's playful semi-planing hull will give you the confidence to maximize your experience on your local run and take you far into your paddling future.

SIZES: STOMPER 80, STOMPER 90

STOMPER 80 SPECS:

NEW FOR 2012

NEW FOR 2012

NEW FOR 2012

BLISS-STICK - TUNA

After a nice long R & D period, Bliss Stick has gotten their new creek boat - the Tuna - to production stage. For anyone out there who isn't from New Zealand, Tuna isn't actually referring to the fish that is often eaten from a can. It is the Maori name for eel, and reflects what Bliss Stick wanted from this boat: something that was sleek, fast and manoeuvrable. Tuna is also the nickname for New Zealand's most famous kayaking river, the Kaituna. By recently winning the Sickline Extreme Whitewater Worlds for the second time in a row, Sam Sutton proved what's hidden in this new creation. A combination of longer length, strong rocker and defined edges make for top speed and agility while still being stable and predictable in steep, high volume whitewater.

SPECS:

Length: 258 cm – width: 67.5 cm – volume: ~ 300 L – weight: 20.9 kg

www.bliss-stick.com

NEW FOR 2012

ZEROATTIVO - ORGASMO

Drawing on experience from over 800 rivers around the world, as well as decades of research, precision paddling and extreme competition, the result is the Orgasmo! Paddlers will immediately appreciate its stability, fast hull, and soft rails, and will be ready to approach rapids with confidence. Pushing the limits, you'll find the Orgasmo your best partner for whitewater adventure. Speed and a no-edges-shape make this boat perfect to cross the heaven and hell of extreme kayaking. The round bow guarantees your soft landing, but the semi-round centre hull and the rounded sides will help you paddle the best and hardest line. Available even in a XXX version in black color and CrossLink Polyethylene.

SPECS:

Length: 255 cm / 8' - width: 66 cm / 26" - volume: 315 L / 83 gal - weight: 21 kg / 46 lbs - paddler range: 70 - 95 kg / 155 - 210 lbs

www.zeroattivo.com

ZET - RAPTOR

Raptor is a serious addition to the creeking world. This cutting edge new creekboat combines balanced volume, stable hull, great plastic and bombproof outfitting with lots of speed to charge. Raptor was developed by competitors Honza Lasko and Viktor Legat and made by the Zelezny technology, which makes it one of the stiffest and most durable kayaks out there with an unbelievable 4-year warranty. This kayak will enhance the abilities of the pros as well as help the beginners to tackle their first harder whitewater.

SPECS:

Length: 255 cm / 8'4" - width: 68 cm / 2'2" - volume: 310 L / 82 gal - weight: 18 kg / 40 lbs - paddler weight range: 75 - 110 kg / 165 - 242.5 lbs

www.zet-kayaks.com

JACKSON KAYAK - VILLAIN S

Hundreds of hours of research, planning, and testing went into this creeker. The Villain is getting rave reviews from serious creekers, male and female alike, impressed with the Villain's floaty feel, ability to punch holes, resurface like a champ, speed and tracking, agility, stability, carve ability, and forgiving nature. There are two versions on the loose: a small/ medium known as the "Villain S" (100-180 lbs) and a large called simply "the Villain" (160-250 lbs). Citizens beware - the Villain also has been proving to be irresistible among paddlers of the fairer sex as well.

SIZES: VILLAIN S, VILLAIN

VILLAIN S SPECS:

Length: 249 cm / 8'2" – width: 65 cm / 25.5" - volume: 300 L / 79.5 gal – weight: 20 kg / 45 lbs – paddler weight range: 45 – 82 kg / 100 – 180 lbs

www.jacksonkayak.com

FLUID – BIG BANG

The Big Bang is our evolutionary creekboat/expedition kayak capable of handling class 5 creeks yet at the same time having ample speed for long hauls and enough packing space for extended periods in the wild. It is super forgiving despite the longer length, highly manoeuvrable, punches through big holes, boofs like a much shorter boat, and has the volume and peaked decks to keep it on top at all times. Features include: a sealed off foam bulkhead, a raised knee area which is relatively wide to accommodate big paddlers, copious volume and an extended water line means that heavy paddlers will find the Big Bang a cruise. It is naturally an easy boat to roll. It is based on our on our highly successful Expedition Solo, creating a longer, faster version, but with changes in some crucial features.

SPECS:

Length: 270 cm / 8'10" - width: 65 cm / 25.5" - volume: 310 L / 82 gal - weight: 22.5 kg / 49 lbs - paddler weight range: 70 - 135 kg / 155 - 300 lbs

www.fluidkayaks.com

BLISS-STICK - MYSTIC

Built to be bullet proof. Designed to meet the demands of the purest creek boater who insists on the next level of performance and style. A hull to get up and go and enough rail to hang on line, this is one serious creation. Already, the Mystic is renowned for its ability to shine on the true hardcore runs and it is unmatched for ease and capacity for multi-day, expedition style kayaking.

SPECS:

Length: 243 cm / 8' - width: 66 cm / 26" - volume: 276 L / 73 gal - weight: 21.5 kg / 47 lbs

www.bliss-stick.com

LIQUIDLOGIC - JEFE

Developed to make creeking more fun and safe by providing maximum confidence to paddlers of all skill levels, the Jefe was finalized after trips worldwide and daily poundings on our backyard Green River Narrows. Whether it be some big-volume beast in the middle of nowhere or your local adrenaline-fix, this ultimate creeker takes care on rivers of any size. The rocker profile and extra volume in the bow eat up big rapids, while the soft chines and added width at the hips provide stability and control during quick transitions. Tried and true, the original Jefe has paddlers smiling all over the world.

SIZES: JEFE CHICO, JEFE, JEFE GRANDE

JEFE SPECS:

Length: 294 cm / 8' 2" - width: 69 cm / 26.5" - volume: 299 L / 79 gal - weight: 21 kg / 46 lbs - paddler weight range: 57-93 kg / 125-205 lbs

www.liquidlogickayaks.com

PYRANHA - BURN

Pyranha's proven performance creek machine. The focused precision performance design of the Burn makes it exactly what you need for pinpoint accuracy on the river and allows you to boof like a pro. Whether you want to eddy hop down a remote gorge or Burn down your local run with precision and accuracy there is more than one reason to choose this world leading design.

SIZES: BURN S, BURN M, BURN L

BURN M SPECS:

Length: 245 cm - width: 65 cm - volume: 279 L - weight: 19 kg - paddler weight range: 55-105 kg

www.pyranha.com

RIOT - MAGNUM 80

Creeking is one of those things where science and unknown can't be separated completely. At least it seems this way. But let me pull the strict science out of the pile: the Magnum. This thing sums up all the knowledge the Riot paddlers have acquired about creeking since day one. The right length and shape to punch well through features without losing too much momentum and end up going vertical. How to make it buoyant yet maneuverable... Now walk confidently towards the unknown, science has been well taken care of.

Sizes: MAGNUM 72, MAGNUM 80

MAGNUM 80 SPECS:

Length: 8'4" / 254 cm - width: 26.5" / 67 cm - volume: 80 US gal / 303 L - weight: 50.9 lbs - 23.1 kg - paddler weight range: 170 lbs - 230 lbs / 77 kg - 104 kg

www.riotkayaks.com

ROBSON - TWENTY

Form and function. Extra volume in the front combined with ample rocker lends more control and makes it easier to come up and out from drops and boofs without losing speed. A double edge rail for tracking and speed helps paddlers catch the smallest eddy. Robson outfitting. Twenty years of whitewater paddling in one boat!

SPECS:

Length: 260 cm / 8'6" - width: 68 cm / 27" - volume: 38 cm / 15" - weight: 20 kg / 44lbs - paddler weight range: 55 - 90 kg / 121 - 200 lbs

www.robson.de

BIG DOG - DROPZONE 8.4

The DropZone is a high volume, displacement-hulled creek boat that, as the name suggests is ideal for gnarly descents and tight, steep lines. Also great for those trips further-a-field that often require a degree of gear to be carried, its displacement hull ensures that even when laden, performance is maintained and handling remains predictable. For reassurance in extreme or remote situations this kayak features some added safety features including: six rescue points, twin deck pillars to form a U shaped internal safety cage and 2 sizes of Full pate footrest. Voted by the readers of Canoe & Kayak magazine in France as 'Boat of the year 2010'

SPECS:

Length: 254 cm - width: 66 cm - weight: 29.5 kg - paddler weight range: 70-130 kg

www.bigdogkayaks.com

ZET - VELOC

This is the new creation in the ZET product line. Inspired by the Raptor, but made with a few important changes, it is its smaller cousin. The boat is perfectly balanced and easy to handle. This kayak will help you to tackle those lower water technical creeks but still has enough volume and speed, so you will not get lost in a big volume river or any extreme kayak race.

SPECS:

Length: 245 cm - width: 65 cm - volume: 280 l - weight: 18 kg - paddler weight range: 45- 80 kg

WHITEWATER RIVER RUNNING

Offering the stability of a creekboat without losing the ability to stop and play a bit along the way. These make great beginners boats too.

DAGGER - MAMBA

NEW FOR 2012

Tested rigorously by some of the most renowned paddlers and kayak coaches in the world, the new 2012 Mamba has been refined, tweaked to perfection, and made to prove itself again and again on a huge variety of whitewater. With increased volume and carefully designed rails, the Mamba is built to be fast, yet predictable and forgiving on even the pushiest of big volume whitewater. For the aspiring class 3 paddler who wants to stay upright and on line, or the seasoned river guru who requires a fast, capable river boat to make those tricky moves every time, the 2012 Mamba is a new classic.

SPECS:

EXO - XT260

NEW FOR 2012

The XT260 is our latest exciting whitewater kayak. The XT260 is the more compact version of the successful XT300. Speed, agility and manoeuvrability are its winning characteristics. The XT260's smaller size combined with its excellent response and stability makes it particularly suitable for lighter paddlers. The newly designed interior structure (seat, footrest, thigh braces and bulkheads) gives the hull great rigidity allowing for noticeable weight reduction and improved performance. A real jewel and welcome addition to our whitewater kayak range.

SIZES: XT 260, XT 300

XT 260 SPECS:

Length: 241 cm – width: 66 cm – volume: 260 L – weight: 20 kg - paddler weight range: 50-85 kg

JACKSON KAYAK - THE RIVER

NEW FOR 2012

The JK River is going to provide you with that traditional river running look and feel with all the benefits of a modern efficient hull and state of the art ergonomics and outfitting. The River is going to give a whole new generation of boaters the ability to experience attainments, enders, and the fast flowing river running experience that so many of us built our paddling lives on. The beginner will achieve confidence immediately as the stability of the River along with its supreme JK comfort and the ease of rolling will shorten the learning curve. With 3 sizes (small, medium and large) Jackson Kayak provides this kayak to any sized boater, making it the ideal kayak for schools and clubs.

SIZES: THE RIVER 55, THE RIVER 65, THE RIVER 75

THE RIVER 65 SPECS:

Length: 8'4" / 250 cm – width: 25.5" / 65 cm – paddler weight range: 140-190 lbs

www.jacksonkayak.com

JACKSON KAYAK - FUN RUNNER

Drawing from the strengths of both the Fun and Hero series the Fun Runner is the logical choice for a first time kayak purchase. Forgiving yet playful, it offers new boaters the opportunity to dip their toes into all that kayaking has to offer and come away as a true enthusiast that will stay in the sport for life. Don't think that because this is the best teaching tool that it is only going to appeal to beginners. Advanced boaters will look to spice up their classic runs with the Fun Runner while intermediate boaters will push their comfort zone in this one boat quiver. Start to explore all that the dynamic world of whitewater has to offer by running new rapids with confidence as well as surfing up a storm on your way down the river.

SIZES: FUN RUNNER 60, FUN RUNNER 70

FUN RUNNER 60 SPECS: Length: 7'9" / 236 cm – Width: 25" / 63.5 cm – paddler range: 100-190 lbs

BIG DOG - FORCE

Semi-Displacement or Semi-Planning, call it what you will but the Force will speak for itself on the river and has already gained a reputation for its speed and agility. The Force is a "Full-On" river runner with a semi-displacement hull, excellent volume distribution, raised rails, rotomoulded deck pillar and plenty of rocker. The Force can charge, boof, flare, carve, slide and re-surface with the best of them. In fact, the only limiting factor to the Force's performance is the paddler sitting inside! Fast, safe and responsive, the Force is everything you'll need from a 'proper' River Runner.

SIZES: FORCE 7.7 FORCE 8.0 FORCE 8.3

FORCE 8.0 SPECS:

Length: 244 cm - width: 65 cm - weight: 18.5 kg - paddler weight range: 70-120 kg

www.bigdogkayaks.com

FLUID - DETOX

The Detox hull incorporates a variation of the Nemesis rail system with super forgiving sidewalls and generous kick rocker to create an exciting but very stable ride. It boofs like no man's business, surfs green waves like a charm, catches must-make eddies with ease, runs creeks like a creekboat, runs big volume runs like a playboat. What more can you ask for? There is ample volume, which, combined with the peaked decks, ensures controllable surfacing when running drops. The deck profile and hull width makes the Detox super easy to roll, inspiring confidence on difficult runs.

SIZES: DETOX S, DETOX M, DETOX L

DETOX M SPECS:

Length: 230 cm / 7'6" - width: 64 cm / 25.25" - volume: 250 Litres / 66 gal - weight: M = 19 kg / 42 lbs - paddler weight range: M = 60-95 kg / 130-210 lbs

www.fluidkayaks.com

WAVE SPORT – DIESEL 70

They've called it the 4x4 of kayaks. The SUV of river-runners. Runs rapids like a fast creekboat and also has a hull that will spin on green waves. Now it's all that and more. Peaked deck for resurfacing - check. A honed combination of planing hull and continuous rocker for the ultimate in agility - check. Outfitting that will let Sasquatch fit in a kayak - big, hairy, check. This isn't just an evolution of the original. Welcome to the next gen of river-running.

SIZES: DIESEL 60, DIESEL 70, DIESEL 80

DIESEL 70 SPECS:

Length: 8' / 244 cm - width: 25.5" / 65 cm - volume: 70 gal / 265 L - weight: 40 lbs / 18 kg - paddler weight range: 120 - 190 lbs / 54 - 89 kg

www.wavesport.com

BIG DOG - FLUX 7.2

Flux One for those who feel their paddling style is in a state of "Flux", wanting a true River Runner but not wanting to relinquish all playful antics. The Flux retains the key playboat design feature, a full planing hull, whilst incorporating River-Running levels of volume, a water shedding foredeck and more forgiving rails. This combination of features makes a kayak comfortable and forgiving for running rivers but one that can still make dynamic use of play-waves and holes on the run down. The Flux does not pretend to be a freestyle kayak but it is certainly at the more playful end of River Runners. The Flux is where Playboats and RiverRunners meet head on.

SIZES: FLUX 7.2, FLUX 7.7

FLUX 7.2 SPECS:

Length: 221 cm - width: 64 cm - weight: 15.5 kg - paddler weight range: 45-85 kg

www.bigdogkayaks.com

JACKSON - HERO

The newest generation of this proven whitewater river runner is even more stable, easier to maneuver, easier to roll and more comfortable. Think sporty too - the new Hero is short and stable, yet super fast for the length. It is as wide and flat as possible, while still allowing the paddler full edge control both on the water and on rocks. The refined drop chines allow for snappy eddy turns and incredibly easy to control ferries and surfing. The new rocker profile turns boofing, which was once its kryptonite into one of the easiest boofing boats in history!

SPECS:

Length: 7'4" - width: 26" - volume: 74 gal - weight: 39 lbs - paddler weight range: 115 - 190 lbs

www.jacksonkayak.com/hero-series

LIQUIDLOGIC - REMIX

Perfect for novices and instructors excited about rolling and proper eddy turns, big water junkies wanting to safely push their limits, or experienced racers looking to cash-in, the Remix is a new concept altogether that combines the clear advantages of a relatively narrow and longer hull platform with modern chine placement to create an unrivaled comfortable, stable and responsive package. We're talking about a boat that carves like a ski when put on edge, stays on the surface when running drops, has a fast hull for catching waves that others just can't catch, rolls easily and inspires confidence. Like an updated classic tune with its new, funky, progressive backbeat, the Remix blends the soul of the past with the technology of present in a vision for the future.

SIZES: REMIX 47, REMIX 59, REMIX 69

REMUX 59: SPECS:

Length: 8'5" / 257 cm - width: 25" / 64 cm - weight: 40 lbs / 18 kg - volume: 59 gal / 223 L - paddler weight range: 110-200 lbs / 50-91 kg

www.liquidlogic kayaks.com

RIOT - THUNDER 65

A current is energy: any source of energy is worthless until it's channeled, cleverly conducted towards an effect. That's exactly what the Thunder does. Point it upstream and its bevelled edges and flat, shallow hull will make any ferry effortless. Point it downstream and all that speed makes it punch through everything smoothly. Just like a reversible switch.

SIZES: THUNDER 65, THUNDER 76

THUNDER 65 SPECS:

Length: 7'8" / 234 cm - width: 25.5" / 65 cm - volume: 65 US gal / 246 L - weight: 48 lbs - 21.8 kg - paddler weight range: 110 lbs - 180 lbs / 50 kg - 82 kg

www.riotkayaks.com

WHITEWATER RIVER PLAY

Offering a bit more volume and stability than a freestyle boat, while still allowing the paddler to throw big tricks.

EXO - PIN UP

Thanks to the flat bottom, the balanced volumes and its rails, the more radical moves become possible. The PIN-UP is ideal for river running and for kids, due to its stability. The Pin-up can also accommodate paddlers with heavy-set builds.

SPECS:

Length: 187 cm - width: 66 cm - weight: 15 kg - paddler weight range: 50-90 kg

www.exokayak.com

JACKSON KAYAK - FUN

The third generation of this best-selling kayak earns its name for novices working on fundamentals and bomb-proofing rolls to experts wanting to run hard stuff but still play their way down the river. Improvements include better foot comfort, bow and stern stay out of the water better, smoother/ easier paddling, faster and looser for surfing. Available also in the larger Super Fun for the biggest fun-lovers.

SPECS:

Length: 195.5 cm / 6'5" - width: 62 cm / 2' - volume: 210 L / 55.5 gal - weight: 14 kg / 31 lbs - paddler range: 61 - 82 kg / 135 180 lbs

www.jacksonkayak.com

PYRANHA - LOKI

With DNA flowing from Molan, Varun and Pyranha's proven design history the Loki has less volume in the deck, and the ends lengthened creating a long and slicey playboat. It will surf, pirouette and wave wheel, allowing you to run the river in style. Designed to revive the classic moves that we learned when we played the river the first time.

SIZES: S, M, L

LIQUIDLOGIC - FREERIDE 67

The term freeride is defined as going without a set course, goals or rules. It means taking the most creative line possible. The design concepts of the Freeride 57 and 67 allow the paddler to take full advantage of the total play potential of any river or play park with complete comfort and confidence. Be it surfing smooth carved lines on the face of a wave, throwing well balanced precision cartwheels and loops, or splatting and squirting your way down the river, the Freeride is designed to create that uncharted line.

SIZES: FREERIDE 57, FREERIDE 67

FREERIDE 67 SPECS:

FLUID - DOPE

It has come to our attention that there are still paddlers out there who want to get high. So we created the Dope. No, you can't smoke it. But you can get high with it. So high, in fact, that you can do multiple aerial moves before landing. So high that you can wave at the crowds, the skies, the birds, the stars, the angels, the fairies, the ... Oh wait, you can't smoke the Dope. The Dope is the latest progression in the science of freestyle kayak evolution. The fusion of radical design with composite material technology takes freestyle to the next level. Gone are the days of blaming your equipment for your failures. Gone are the days of blending in with the crowd of mediocrity.

SIZES: S, M, L

SPECS:

Length: S = 175 cm / 5'7" - M = 180 cm / 5'9" - L = 185 cm / 6' Width: S = 62 cm / 24.4" - M = 65 cm / 25.5" - L = 68 cm / 26.7"

JACKSON KAYAK - ALLSTAR

The go-to boat for the world's best kayakers helps hometown paddlers feel like champions too. Equally at home on waves or holes, this powerful, compact, lightweight boat delivers lightning fast moves and huge air whether learning a trick for the first time, or performing the hardest tricks with the biggest amplitude in national and world championships around the globe. This boat is also available in the larger Super Star and the linebacker sized Mon-Star.

SIZES: MON-STAR, ALLSTAR, SUPER STAR

ALLSTAR SPECS:

Length: 5'10" - width: 25 3/4" - volume: 55 1/2 gal - weight: 30 lbs - paddler range: 130-200 lbs

www.jacksonkayak.com

JACKSON KAYAK - ROCK STAR

The freestyle boat that shows up on the podium more than any other brand, the Rock Star loves the limelight. Shorter, faster, looser, and lighter, and a higher seating position that gives you more leverage adds up to bigger looping, spinning and lightning fast combos. McNasty and Phonix Monkey moves were made easier with improved rocker profile in the bow to allow it to "reel up" high before throwing. Refined drop chines and balanced volume distribution make keep saying Wow! every time you try something different. Shave more weight and go even huger by special ordering the Rock Star in carbon Kevlar.

SIZES: S, M, L

ROCKSTAR M SPECS:

Length: 5'9" - width: 26" - weight: 29 lbs - paddler weight range: 140 - 200 lbs

www.jacksonkayak.com

RIOT - ASTRO 54

The Astro series offers a crisp and dynamic freestyle playboating. With release edges all around the hull, the perfect amount of rocker back and forth and just the buoyancy you need to push it down enough, without staying down too long upon landing. The result? A bouncing machine that will let you show it off without kicking you off the curb in the next turn. All these features serve the purpose of putting you in the right place at the right moment. Whether you land frontwards or backwards... we'll leave that up to you!

SIZES: ASTRO 54, ASTRO 58

ASTRO 54 SPECS:

Length: 6'2" / 188 cm - width: 25" / 63.5 cm - volume: 54 US gal / 204 L - weight: 34.2 lbs / 15.5 kg - paddler weight range: 110 lbs - 180 lbs / 50 kg - 82 kg

www.riotkayaks.com

WHITEWATER BOATS FREESTYLE

PADDEexpo 2012 Buyers Guide

ROBSON - BLOWFISH

A freestyle weapon defining the next generation - hard edges along the length of the boat, a higher seat position and a higher volume distribution around the cockpit. This radical wave and hole shredding device is double fun. Easy enough to handle for rodeo novices and heavy use playboaters, both have big time fun. Designed by Sebastian Striebel.

Additional notes: Pro Logic Seat System and Overthruster

SPECS:

Length: 191cm / 6'3" - width: 67.5cm / 2'2" - volume: 190 L / 50 gal - weight: 15 kg / 32 lbs - max. cap.: 90 kg / 198 lbs

www.robson.de

WAVE SPORT - PROJECT X 56

International competition fiend and longstanding leader in playboat design, Wave Sport introduces the all-new Project X. The highly refined design, new volume distribution and blazing-white outfitting system make it the ultimate in performance and visual excitement. The explosive Project X represents a half-decade of freestyle research from the world's top kayak team. It is the new benchmark in paddler control both on waves and holes, with no sacrifices. It's finely tuned to maintain speed, deliver pop, offer easier release, and provide smooth control over any wave. More volume around the knees gives control, maximum comfort, and a slicier performance at the ends.

SPECS:

Length: 5'11" / 180 cm - width: 25.75" / 65 cm - volume: 56 gal / 212 L - weight: 32 lbs / 14.5 kg - paddler weight range: 140-210 lbs / 64-96 kg

THE NEW 2012 MAMBA

SPEED, VOLUME & CONTROL

- 1 SMOOTHER, FASTER HULL SHAPE**
Carries more speed and accelerates quickly. Great for steep, technical moves and perfect for bigger volume power paddling.
- 2 INCREASED VOLUME**
Especially in the stern, giving a drier ride and improving stability on difficult eddy lines, for punching through features and landing drops.
- 3 TUNED SIDEWALL AND RAIL PROFILES**
Full in the mid section and tucked to the ends. Improving paddler feedback and control without resorting to trippy edges. Makes for a more agile boat.

Available now in 7.6, 8.1 and 8.6 sizes featuring Dagger's River and Creek outfitting options.

WHITEWATER COMPOSITE

Bringing performance-enhancing rigidity and lightweight construction, composite boats are carrying river play to exciting new levels.

JACKSON KAYAK - ROCKSTAR - CARBON

What could possibly go bigger and faster than a Rock Star? A 9.5 Kg Carbon Rock Star! This engineering masterpiece uses carbon, Kevlar, foam core, advanced techniques and top notch craftsmanship throughout. Less swing weight means the ease of initiating moves is noticeable the first time you try it. Paddlers will immediately feel as if they just took a 10-pound weight out of their kayak. The rigid hull stays true to the design in any situation and shines on big waves for massive take-offs. Sold with custom comfort outfitting: Sure-lock backband, Happy Feet and Sweet Cheeks 200.

SIZES: SMALL, MEDIUM, LARGE

CARBON ROCKSTAR M SPECS:

Length: 5'9" - width: 26" - height: 14.25" - volume: 58 gal - weight: 21 pounds SL - paddler weight range: 140-200 lbs

www.jacksonkayak.com

ZET - SAGO

ZET kayaks introduces with pleasure a new pure freestyle competition special, that unites elegance and aggressiveness. The main goal was to make a light boat for freestyle kayaking that would be tough enough for riding on waves and in holes.

SPECS:

Length: 185 cm - width: 65 cm - volume: 220 l - weight: 7.5 kg - paddler weight range: 65- 85 kg

www.zet-kayaks.com

GUIGUI-PROD - EASYMIX 2008

"The 2008 Easymix was originally designed by Guigui & Leo for the Buseater Worlds in '07. They created one of the easiest boats to go huge on waves in, but at the time it wasn't known just how good a design it was in holes, too. In my mind, it's still the best design today. I haven't paddled it yet at any spot where it hasn't excelled. It goes massive, is easy to paddle and, combined with Guigui's class leading construction, is the toughest and lightest carbon boat out. I won the World Champs this year in the 2008 model and since starting to paddle the boat in 2008 my kayaking and results have gone to new levels. Now I have the option to paddle in any design I want and I still choose to paddle my boat." Pringle, 2011 World Freestyle Champion

SPECS:

Length: 1,85m / 6'1" - width: 60cm / 23,6" - weight: 8,5kg - paddler weight range: 65-75kg (up to 90 kg with customization)

www.guigui-prod.com

GUIGUI-PROD - EASYMIX 2010

The Easy Mix 2010 is the latest from Guigui Prod's. Guigui and Mat Dumoulin put in this boat all their knowledge of construction, shaping and understanding of whitewater. It's an easy boat, allowing for very smooth paddling with forgiving edges. It's also a very snappy and radical kayak after initiating tricks. This is what this shape brings: it's easy to paddle down a river, enter into a feature, surf and spin. Then it gets radical when you start doing a trick, because then you are using a different part of the boat. You can find in this very progressive kayak what you're looking for when you're looking for it. This boat is made for world champions and passionate local paddlers alike.

SPECS:

Length: 1,79m / 5'10" - width: 60cm / 23,6" - weight: 8,5kg - paddler weight range: 65-75kg (up to 85kg with customization)

www.guigui-prod.com

TITAN KAYAKS - GENESIS CV

Lighter, stiffer, faster, looser, better. Within this design we focused on bringing out the true potential of what a composite boat can do. To not just simply take our plastic boat and produce it as a composite, but instead to take into account the unique characteristics of composite materials within the design process to push our designs further and create a boat that was designed specially to be a composite.

Some of these features include...

- Rocker that utilizes the extra speed gained by a Carbon/Kevlar hull.
- Secondary nose and tail rails for sharper edge to edge transitions, carves and bounces to make full use of your boats 8kg weight.

SPECS:

Length: 176cm / 5'9 1/2" - width: 67cm / 26" - custom volume: 208-227 l / 55-60 gal - weight: 8kg / 17.5lb - Paddler weight range: 60-97kg / 130-210lb

www.titankayaks.com

VAJDA - STEALTH

Why not use the best materials to go big? With more than 20 years of experience in composite constructions, the Vajda group teamed up with Peter Csonka to build new freestyle kayaks that have the best performance for waves and holes anywhere. The weight, the stiffness and the shape allow paddlers to go bigger and faster than it was ever possible before. The Stealth is the gun for future competitions. It is opening a new era of freestyle kayaking. Our goal was to build a boat that you try once and you don't ever want to paddle any other boat - and we made it! So enjoy the Vajda like the boat designer, World Championship silver medalist Peter Csonka, does.

SPECS:

Length: 185 cm / 6'1" - width: 64,5 cm / 25,4" - height 33,5 cm / 13,1" - weight: 9,5 kg / 20,9 lbs - paddler weight range: 73-83 kg / 160-183 lbs

WAVE SPORT - PROJECT 54 CX LIMITED EDITION

Every paddle stroke feels effortless to propel the boat forward due to its ultra-light weight. This transfers into moves while surfing a wave or a hole, or running a rapid. Hand crafted layer-by-layer to achieve rigidity and durability in exactly the right places, the end result is a very light and stiff boat with exceptional performance and impact resistance. Individually numbered, handcrafted series of only 50 were issued worldwide.

SPECS:

Length: 6' 2" / 188 cm - width: 25" / 64 cm - weight: 20 lbs / 9 kg - volume: 54 gal / 205 L - paddler weight range: 120-200 lbs / 54-91 kg

www.wavesport.com

LETTMANN - GRANATE COMPOSITE

Developed by four world champions: Fabian Dörfler - K1 Slalom world champion, Thilo Schmitt -Sickline World Champion, Jochen Lettmann - K1 Slalom World Champion and Olympic Bronzemedalist and Klaus Lettmann - K1 Downriver World Champion. They guarantee that this new Creek boat is not only fast but it also reacts on every stroke you do in whitewater like a slalom kayak. The high volume gives you control for boofs and drops without losing speed. We use high-strength synthetic fibers combined with high quality resins, which significantly prolong survival time, give the boat a better, more personalized look, and have a favorable effect on paddling ability.

SPECS:

Length: 260 cm - width: 65 cm - weight: 13 kg - volume: 300 l - paddler weight range: 70-135 kg

www.lettmannkayaks.com

WHITEWATER CROSSOVERS

Overnighters or day trips, running whitewater or cruising the flats with ease - these boats manage to do it all.

JACKSON - ROGUE

The quiver of one for the paddler that wants to do it all - meandering rivers, light touring, Class II-III whitewater - this hybrid whitewater/touring design goes downriver with confidence and crosses lakes with precision glide. A generous waterline and retractable skeg lets you check out the scenery without worrying about getting off track. Adjustable hip pads and foot braces plus a Surelock backband add up to long-term comfort while ample storage keeps gear dry for overnight trips. Available in two sizes, Rogue 9 and Rogue 10.

SPECS:

Length: 9'4" - width: 27.75" - weight: 44 lbs

www.jacksonkayak.com

ROBSON - APEX

Touring and whitewater? YES! The Apex delivers! A nimble and versatile package allowing you to enjoy light whitewater and easy touring. Abundantly, outfitted with drop down skeg, rear bulkhead and large hatch along with a small easy to reach day hatch. Comfortable cockpit with adjustable backrest, footrest and thigh braces. The Apex is stable, responsive and quick to accelerate. A great boat for exploring it all!

SPECS:

Length: 310 cm / 10'4" - width: 68 cm / 27" - volume: 36 cm / 14" - weight: 23 kg / 50 lbs - max. cap.: 120 kg/264 lbs

NEW FOR 2012

NEW FOR 2012

ZEROATTIVO - VERVE FISHER

Verve is an excellent multipurpose kayak. Super easy for beginners, stable and handy, it is an excellent companion for those who live kayak adventures in large scale. From a quiet Sunday on the lake to an exciting river trip to practicing kayak fishing on the sea to your first whitewater experience, Verve is never out of place.

Verve Explorer is equipped with big watertight stern storage, skeg, bungee and deck waterbottle holder. Available in "College," "Sun," and "Fisher version," completed with paddle keeper and rod fishing holders.

SPECS:

Length: 310 cm / 10' – width: 66 cm / 26" – deck height: 39 cm / 15,3" – cockpit: 87 x 47 cm / 34,25" x 18,5"

www.zeroattivo.com

LIQUIDLOGIC - REMIX XP9

It is often said that there is gap in kayak design, that no "one" kayak excels in whitewater yet carries speed across flat calm lakes and slow moving rivers... that is until now. The Remix XP was designed to bridge the gap between the two once and for all. It is an extension of our popular river runner series and although its roots are firmly planted in whitewater, the XP's extended waterline allows it to cruise the flats with ease. The XP has an integral skeg which when deployed offers superb tracking; but with the skeg tucked away the boat offers the agility needed to excel on whitewater. Finally, the dry storage compartment can easily hold a weeks worth of camping gear.

SIZES: REMIX XP9, REMIX XP10

REMIX XP 9 SPECS:

Length: 9' 3" / 282 cm – width: 26" / 66 cm – weight: 446 lbs / 21 kg – volume: 73 gal / 276 L – paddler weight range: 100-220 lbs / 45- 100 kg

www.liquidlogickayaks.com

JACKSON - DYNAMIC DUO

This is a high performance tandem with all of the comfort, dryness, durability, ease of rolling, and outfitting of Jackson Kayak's top of the line Hero series. Suitable for teaching, guided river trips or bringing a friend, child or significant other along, the Dynamic Duo really opens up paddling to those who aren't quite ready to go solo! Designed to deliver optimum performance over a wide range of weights and distributions.

PECS:

Length: 12' - width: 26.5" - volume: 143 L - weight: 65 lbs - paddler weight range: 265 – 500 lbs

www.jacksonkayak.com

PYRANHA - FUSION

The Fusion allows paddlers to enjoy two great areas of paddle sport, whitewater and touring. Super stable, fast and easy to paddle, the Fusion gives you the freedom to choose from some fun whitewater, checking out a sheltered bay or making overnight trips and letting paddlers really enjoy the great outdoors. Also available in small size.

PECS:

Length: 312 cm / 10' 2" - width: 66 cm / 2'2" - volume: 308 L / 81.5 gal - weight: 20.8 kg / 46 lbs - paddler weight range: 55 - 130 kg / 121 – 287 lbs

www.pyranha.com

RIOT - BOOGIE 50

Now a classic, the Boogie is undoubtedly the boat of choice on rocky shores and for any surf kayaker seeking an affordable, high performance and care-free surfing machine. Its squashtail template with super-sharp rails on the back and long, roomy front and provides tremendous speed, tons of carving power, and allows paddlers of all sizes to feel the love.

SPECS:

Length: 7'9" / 236 cm - width: 24.7" / 63 cm - volume: 50 US gal / 189 L - weight: 35 lbs / 16 kg - paddler weight range: 120-200 lbs / 54-91 kg

www.riotkayaks.com

FLUID - DO-IT-NOW

The Do-It-Now is a unique whitewater sit-on-top. Contrary to other "whitewater" sit-on-tops, the Do- It-Now has a true whitewater pedigree. It allows for exactly the same interface between paddler and boat as any whitewater kayak, meaning that the knees, key to boat control, are in fixed contact with the kayak. This allows the paddler to control the kayak properly by edging the boat accurately when needed, and it also allows the paddler to roll the boat easily. Being a sit-on-top, the Do-It-Now has the advantage of being sealed from water entering the shell. This allows a swimmer to get back onto the boat anywhere making swims much shorter and less intimidating. No more swimming to the bank and emptying water out of a heavy boat.

SPECS:

Length: 280 cm / 9' 1" - width: 70 cm / 27.5"

www.fluidkayaks.com

EXO - XW1

The new XW1 is our latest model and the first surf kayak produced by Exo, developed and designed with the cooperation of the best Italian surf kayakers with international experience. The XW1 is the ideal all-round surf kayak both for fun kayakers and the more experienced sports enthusiast, giving you a great feeling paddling the boat and allowing the execution of "cut back", "off the lip" and "bottom turn". Due to its special design, i.e. central bulkheads in polyethylene and foam, this kayak is extremely strong and light which allows for fast reboots and exciting performance.

SPECS:

Length: 235 cm - width: 62 cm - weight: 14 kg - paddler weight range: 55-90

www.exokayak.com

AQUARIUS - X-ROCK

Canoe Polo "X Rock," new model for season 2012. Since our first canoe polo design, the Aqua Polo, main trends and rules have been changed. Aware of present trends in the world of canoe polo we decided to make modern canoe polo design - the X-Rock. Our goal was to find the best combination of speed and agility. For impact zones we use integrated padding. The Carbon VIP version weighs 7.3 kg, with seat and padding! The club version is heavier but more durable and cheaper.

SPECS:

Length: 299 cm - width: 58cm - weight: 7,3 kg - paddler weight range: 75-100 kg

www.aquariusport.com

NEW FOR 2012

NEW FOR 2012

NEW FOR 2012

All you need is everything.

But how can a device that has every technical feature a whitewater paddler could reasonably require possibly be smooth, uncluttered and slimline enough to be unobtrusive and unrestricting while paddling? Well, hey... we don't want to brag. It just is, and we think you should check it out...

High flotation 70N whitewater kayaking & rescue buoyancy aid / pfd

Ergonomic fit: hinged 3D-flex foam platform wraps around the contours of all body shapes

Unique 6 points of once-only adjustment for superb contact and convenience

'Contact fit' waist webbing prevents ride up

High strength continuous (automotive seat-belt webbing) shoulder harness one piece throughout, terminated in crotch-strap/Krab loops (two fronts, one rear) for extreme use*

Quick release (hi-vis yellow pull toggle) 50mm seat-belt chest belt, removable and reversible for left or right handed users

Tried and tested friction plate configurable for auto, positive, or zero release

Flat profile, zipped, expanding, compartmentalised front pocket, keeps front panel clean and protrusion free for safety

Knife Park with quick-release safety attachment.

Krab Park for cowstailsling (available separately)

500D Cordura durable construction reinforced with bar tacks in critical areas

Extra thick shoulder pads with enduro mesh reinforcement for portaging and clavicle protection

Removable hinged plastic reinforced front, back and side impact panels (available separately)

Hi-vis panels and additional retro-reflective features for safety

Lash points for accessories

CE Approved to EN393

Designed for whitewater kayaking, swift water rescue, emergency services, raft guiding

* Experienced persons can tether the buoyancy aid to a sit harness or crotch straps so that it cannot be pulled off. The immense strength of the buoyancy aid internal structure would be of no use without this system because the buoyancy aid could simply be pulled off as the wearer's body starts to deform significantly at forces in excess of 1.4kN (150kg vertical weight equivalence).

Adjust your vest the first time you wear it and you never need to again. Or tweak the fit for a different person, season, layering - instantly. Punch and carve down a class V canyon with the unrestricted kinetic ability of a slalom paddler. Inspect a hard-to-see rapid from an overhang, clipping in and out of belay without a fuss. Organise and access must-have tools one handed and without fiddly zips or velcro. Configure the chest belt for auto, positive, or zero release. Strap into a sling harness for an abseil or a rescue. Swim passively or aggressively with intelligently distributed high level flotation. Clamber onto rocks or rafts unhindered, with a completely smooth front panel free of protruding pockets. Be confident with unsurpassed critical (clavicle, kidney) impact protection, and the continuous seat-belt webbing internal harness. Be seen, and safe...

WHITEWATER PADDLES - HIGH END

Lightweight construction and advanced technology create a high performance paddle.

NEW FOR 2012

LETTMANN - ERGONOM MULTI WAVE EXTREM

This lightweight paddle is designed for whitewater and freestyle kayaking. The wave structure on the blades gives the paddle more durability and stiffness. Also the wave design creates a hydrodynamic lift that offers more pressure by using less power. The Extrem-Version of our Multiwave-Paddle is a solid carbon-kevlar-construction with kevlar-rim that promises a long friendship.

SPECS:

Length: 190-210 cm - weight: 940g - feather: 55° - custom - material: carbon / kevlar

www.lettmann.de

NEW FOR 2012

LIGHTNING - THUNDER NIGHT

Made from high performance flow tech the Thunder Night is extra durable and lightweight. A classic creeking shape with a large surface area for good purchase on the water. The oval bent shaft makes it is easy to place your hands and maintain control.

SPECS:

Length: 190-200 cm - weight: 1100 g - blade size: 42 x 21.5 cm - feather: custom - material: Flow Tech

www.robson.de

NEW FOR 2012

NIX - EXTREME

NIX paddles is a new brand in the world of whitewater. The original shape and profile of the NIX Extreme paddle has been designed with maximum stroke effectiveness and stability in mind. The NIX brand is particular about using the highest quality materials. The paddle construction has been developed for durability in extreme conditions, and has been tested by daily use over the last year.

SPECS:

Length: 185-210 cm - weight: 1050g - blade size: 47 - 20.5 cm - feather: 0- 90 - material: Carbon

www.nix-paddles.com

NEW FOR 2012

OPHION - KATANA

Smooth, balanced, powerful and light. We wanted to compliment the already powerful aggressive existing range with something a little less aggressive, giving the paddler a smoother more traditional stroke. The unique dihedral ridge on the powerface keeps the paddle stable while it slices through the water on a draw stroke. Due to the new design we managed to reduce the blade length and retain the width giving you quick loaded power that stays stable. It's this combination of Dihedral and Spine shape that keeps the paddle so balanced. For creekers and freestylers alike.

SPECS:

Length: custom - weight: 900 gr - blade size: 46x21 cm - feather: custom - material: carbon

www.ophionpaddles.com

NEW FOR 2012

ROBSON - HAIDA

Technology: Flow Tech is lighter, stronger, and greener because its epoxy free. Design: BIG, down turned blades for power and less chance of catching on your boat at crucial moments. Powerful entry with smooth follow through. FlowTech blades are light and buoyant in aerated water, less fatigue on the shoulders. Stable bracing and rolling. Top creeking and play boating paddle.

SPECS:

Length: 190-200 cm - weight: 1100 gr - blade size: 42 x 22 cm - feather: custom - material: Flow Tech

www.robson.de

NEW FOR 2012

SELECT - PULSE

The Pulse is the powerful aerated buoyant paddle made by Select. The Pulse combines foam core blades and thin edges, making it easy. Impressive stability in every situation. The blade generates power stroke and easy handling. This new paddle is a combination of rock solid construction and very light handling. The top-notch paddle for professional kayakers!

SPECS:

Length: 180 cm - 204 cm - weight: Straight 999gr / Bent 1045gr - blade size: 650 cm² / 720 cm² - feather: Custom - material: Carbon

H2O - HYDRA

The Hydra Series whitewater paddle provides solid performance with crisp blade feel, control and enhanced comfort. Available in Grip Indexed Ergo Bent (Both Carbon and Texalium) shafts. Asymmetrical blade profile provides solid performance for both freestyle and river running. The Nano-Technology Nickel Blade adds new aesthetics and allows more stiffness and durability than anything on the market. Lighter, Stiffer, Stronger – The H2O Hydra.

SPECS:

Lengths: 185, 188, 191, 194, 197 - Shafts: Bent Carbon, Bent Texalium - Offsets: 0, 12, 30, 45 - Colour: Chrome

www.h2opaddles.com

NIL - DESIGNER PADDLE

Did you ever want to have your own design or brand on a paddle? Then this is the right way for you! The trademark NIL guarantees the best quality. All our paddles are high-tech products with foam cores and quality top-sheets. We are NOT producing self-adhesive stickers! We manufacture high-class paddles individual for each company at a reasonable price! Design a unique paddle with your own label.

SPECS:

Length: 192 / 194 / 197 / 200 cm - weight: 1000 g - blade size: 21cm x 495cm - material: CFK / GFK prepreg

www.nilstyle.com

PANENKA - BLISS

Flexible kayak paddle for most demanding paddlers. Stiff and superlight blade for stable and powerful stroke. Shaft as per your choice.

SPECS:

Length: 180-210 cm - weight: 900 g - material: carbon-kevlar

www.panenka-paddles.cz

PANENKA - COBRA

Premium kayak paddle for extreme white water and river running. Stiff and superlight blade for stable and powerful stroke. Shaft as per your choice.

SPECS:

Length: 180-205 cm - weight: 900 g - material: carbon-kevlar

www.panenka-paddles.cz

ROBSON - FLUID PRO LOGIC

The Fluid is our most popular paddle, ideal for rodeo and creaking. The Fluid's asymmetrical blades with a slightly dihedral profile facilitate effective strokes close to the boat, meaning more control especially in freestyle moves. Also, available in full carbon version and fiberglass with Carbon bent shaft.

SPECS:

Length: 190-202 cm - weight: 1150 gr - blade size: 42 x 22 - feather: custom - material: Fiberglass

www.robson.de

WERNER - SHO-GUN

The Sho-Gun is the ultimate creek and river running paddle. The large blade design is balanced to create a clean catch that is immediately powerful and smooth through out the entire stroke.

SPECS:

Length: 185-206 cm - weight: 36 oz Straight Shaft / 38 oz Bent Shaft - blade size: 48 x 20 cm - feather: Available - material: Performance Core Carbon

www.wernerpaddles.com

WHITEWATER PADDLES - PERFORMANCE

With progressive technology and shape, performance paddles suit the advanced kayaker and make cruising a pleasure.

NEW FOR 2012

OPHION - KATANA - CLUB

New Ophion Katana-Club slices through the water like a knife; it's smooth, balanced, powerful and light. We wanted to compliment the already powerful aggressive existing range with something a little less aggressive giving the paddler a smoother more traditional stroke. The unique dihedral ridge on the powerface keeps the paddle stable while it slices through the water on a draw stroke. Due to the new design we managed to reduce the blade length and retain the width giving you quick loaded power that stays stable. It's this combination of Dihedral and Spine shape that keeps the paddle so balanced.

NEW FOR 2012

TYWARP - FIRE FB

Top of the line eco-friendly paddle. Our Eco Series features a whole range of whitewater and touring paddles made of natural fibres. The Fire FB has a foam core blade consisting of flax fibre with a basalt fibre shaft. Both are "green" materials: non-polluting, non-hazardous, non-toxic, recyclable. Great performing paddle with an environment-friendly edge.

SPECS:

Length: 192-204 cm - weight: 1000g - blade size: 48x21cm - feather: 45° - material: Flax/Basalt

www.tywarp.com

AINSWORTH - N104 SIDE KICK

Tough Nylon 66/Long Glass fibre kayak paddle. Whitewater, river running paddles, also great for the surf. The large blade area produced the power to catch the waves and so this paddle is a favourite with the surfers. Shafts are Titanium enriched aluminium alloy, glass or filament wound carbon, all with an index grip on the control side. Extra 'X' grips are also available on the full range.

SPECS:

Length: 180 - 220

www.ainsworthpaddles.co.uk

AINSWORTH - N105 PLAYSTICK - CRANK SHAFT

Tough Nylon66/Long Glass fibre kayak paddle blade with crank shaft. Short, stumpy blade for playboating and shallow rivers. The crank shaft is a Titanium enriched alloy, carbon composite, which utilises the best qualities from both materials, and produced a crank shaft strong enough for whitewater. The crank shaft is a striking Electric Blue.

SPECS:

Length: 180 - 205

www.ainsworthpaddles.co.uk

AQUA-BOUND - SHRED CARBON

The Aqua-Bound Shred carbon shaft paddle features an all-new blade shape. With a little help from world champion kayaker Ken Whiting and friends, the Aqua-Bound Shred has come to complement all the changing kayaks on the market. The result is a blade shape with no flutter and lots of power. The Shred Carbon shaft comes with black blades that are made using polythalamide material and are reinforced with carbon abX resin. Therefore, the blade is extremely durable, but also stiffer and lighter.

SPECS:

Length: 192cm-200cm - weight: 34.5oz - blade size: 7.75" x 18" - feather: 1pc or 4pc (30degree RHC) - material: T-700 Carbon

www.aquabound.com

KOBER - ENERGY

The top model of the ATT-whitewater-series! Reinforced polyamide(Nylon®) with carbon provides impact resistance, durability and lowest weight. With the precision of a composite paddle and its sophisticated hydrodynamics, and without impairing ridges and edges, you will always have the power for the perfect line, even in trickiest whitewater.

SPECS:

Length: 194-203, in steps of 3 cm - weight: ca. 950 g - blade size: 45 x 19,6 cm - feather: 45° R/L - material: polyamide + carbon fibre, in ATT

www.kober-paddel.de

PROFIPLAST - XENA

The Xena is specially designed for whitewater and freestyle paddling and provides you a smooth and strong forward and backward stroke. Its thermoplastic blade with progressive shape filled with carbon fiber has excellent abrasion resistance. The blade surface is 723 cm², with a duraluminium or composite shaft in one-piece version.

SPECS:

Length: 180-220 cm - weight: from 976 g - blade size: 723 cm² - material: PA with carbon

www.profiplast.com

SCHLEGEL - POLO

The new Polo Paddle offers excellent characteristics for the beginner to intermediate Polo user. It also meets and conforms to the official guidelines. Blade: PU Rim Shaft: Anodised aluminium with plastic oval grips. Dimensions: 196cm / 198cm / 200cm / 202cm / 204cm Weight: about 1250 gr.

SPECS:

Length: 196/198/200/202/204 cm - weight: 1250 g - feather: 90° - material: PU

www.kutech.de

KOBER - ZOMBIE EFC

Zombie EFC: Powerful. Unstoppable. Green. With this new whitewater paddle all advantages of the EFC-technology (Entire Foam Core) are now available in low-priced fibreglass construction. It has more volume in the blade for enhanced buoyancy even in air filled water. Bracing and rolling are made much easier. It offers an even, hydrodynamically perfect cross-section without any impairing ribs and edges, for a balanced performance with no fluttering or splashing. Stiff, light-weight blades.

SPECS:

Length: 191 - 203 cm - weight: 1.070 g straight, 1.130 g ergo - blade size: M=47 x 19,3 cm - L= 47,5 x 20 cm - feather: 45° R/L - material: carbon/aramid/fibreglass - size: L, M

TNP - JAGO

This kayak paddle is designed for whitewater kayaking. It will be mainly produced on the 28 mm diameter shaft but is available on 30 mm shaft as well. With its smaller blade area, it fits perfectly into hands of junior paddlers or women but it has already captured the attention of many paddlers, with its great design and features. Available in yellow or black color.

SPECS:

Length: 182 - 240 cm - weight: 750 - 970 g - blade size: 608 cm²

www.tnp.cz

TNP - RAPA

This kayak paddle allows you to paddle down any type of whitewater. It is available on four types of shafts (duraluminium, fibreglass, carbon, carbon-kevlar), also with YP coupling which allows you to set any type of angle and extend the paddle up to 10 cm, allowing each paddler to choose their most suitable combination. The paddle can be also produced as a simple split, perfect as your spare paddle in your boat.

SPECS:

Length: 182 - 240 cm - weight: 860 - 1160 g - blade size: 713 cm² - material: technical plast (PA)

www.palmequipementurope.com

LANGER - EPIC V

A comfortable and casual white water pullover PFD offering full flotation and perfect freedom of movement. Made of rugged cordura nylon and including a chest harness with a quick-release buckle this PFD is a durable and safe companion on the water. Sewn through harness offers outstanding reliability and includes a front pocket, inner pocket, dual cowtail parks and reflective materials to complete the outfitting.

Material: Cordura - Colours: red; yellow

www.textil-langer.de

STOHLQUIST - DESCENT

A fully supplied PFD for serious white water missions. In spite of numerous safety features like a quick release belt and a big front pocket for accessories and provisions it is not bulky and offers a real wide operating range. Six different adjusting features at chest, belly and waist offer a perfect fit. The cross chest cinch straps and the Gripp-Loc™ panels help to avoid any kind of unintended ride-up.

Sizes: S/M, L/XL, XXL - Color: mango, red

www.stohlquist.com

LANGER - AKC SHAPE

All straps are bound in one system, so this PFD is perfectly equipped for all kinds of safety and rescue needed in difficult white water situations. Made of rugged cordura nylon, with front pocket, 2 inner pockets, knife pocket, a chest harness with quick-release buckle and the extra loud safety whistle this PFD has all you need for your next adventure.

Material: Cordura - Colours: red; yellow

www.textil-langer.de

NOOKIE - RIVERMONSTER XT

Adjust your vest the first time you wear it and never have to do it again. Or instantly tweak the fit for a different person, season, or layering. Punch and carve down a class V canyon with the unrestricted kinetic ability of a slalom paddler. Inspect a hard-to-see rapid from an overhang, clipping in and out of belay without a fuss. Organise and access must-have tools one handed and without fiddly zips or velcro. Strap into a sling harness for an abseil or a rescue.

Sizes: S/M, L/XL - colour: Yellow, Grey & Black

www.nookie.co.uk

STOHLQUIST - ROCKER

The ROCKER with its body wrapping and ergonomically articulated torso stands for a maximum freedom of movement. The cross-chest cinch harness adjustment and the self-tensioning shoulders ensure a great fit, following every rotation of the torso. The Gripp-Loc™ interior non-slip panel helps to avoid any kind of ride-up, and the 6 adjustments, side pulls and a front waist buckle closure, make sure that the ROCKER stays in place.

Sizes: S/M, L/XL, XXL

Color: mango, red
